PROCLAMATION 2586

FLAG DAY, 1943

BY THE PRESIDENT OF THE UNITED STATES
OF AMERICA

A PROCLAMATION

June 14 has for many years been set aside as Flag Day in honor of the emblem of our national strength and unity. This year the Stars and Stripes is a battle emblem flying in the deserts and jungles and over arctic snows. It flies with our men in Africa, Australia, New Zealand, China, Burma, and the Aleutians, and in fastnesses of the world so remote that the American flag has never been seen there before. In the Coral Sea and the Atlantic and Pacific, it is a mark of hope to our allies and of despair to our enemies. Our colors have found their way to the heart of the enemy over Berlin and Tokyo.

We know that our flag is not fighting alone. This year the flags of thirty-two United Nations are marching together, borne forward by the bravery of free men. Together they are the emblem of a gathering offensive that shall liberate the world. As brothers in arms, we of the United Nations have pledged to one another our mutual strength until total victory is won and peace assured.

Our armies, our navies, and our air forces are now perfecting the teamwork with our allies which shall, under God, bring victory in this great cause to which freedom-loving mankind has dedicated itself. Made strong by our common bonds, we shall face the future with resolution and rededicate ourselves to the achievement of permanent collaboration among nations and security for all men. For only by teamwork can we win the war and establish a lasting peace.

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do hereby ask that on Flag Day, June 14, 1943, the people of our Nation honor the peoples of the United Kingdom of Great Britain and Northern Ireland, the Union of Soviet Socialist Republics, China, Australia,

Belgium, Bolivia, Brazil, Canada, Costa Rica, Cuba, Czechoslovakia, the Dominican Republic, El Salvador, Ethiopia, Greece, Guatemala, Haiti, Honduras, India, Iraq, Luxembourg, Mexico, the Netherlands, New Zealand, Nicaragua, Norway, Panama, the Commonwealth of the Philippines, Poland, the Union of South Africa, and Yugoslavia.

I direct the officials of the Federal Government, and I request the officials of the State and local governments, to have our colors displayed on all Government buildings on Flag Day, and I urge the people of the United States on that day to fly the American flag from their homes and to arrange, where feasible, for joint displays of the emblems of the freedom-loving nations.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 3rd day of May, in the year of our Lord nineteen hundred [SEAL] and forty-three, and of the Independence of the United States of America the one hundred and sixty-seventh.

FRANKLIN D. ROOSEVELT

By the President:

CORDELL HULL,
Secretary of State.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-310]

R. B. DAVIS CO.

R. B. Davis, doing business as R. B. Davis Company, Allentown, Pennsylvania, is engaged in business as a retailer and installer of plumbing and heating equipment. On or about January 4, 1943, he installed new metal heating equipment at a cost in excess of \$10.00 on an order which did not bear a preference rating. This constituted a violation of Limitation Order L-79. Subsequent to November 17, 1942, he made four purchases of new metal heating equipment and extended to his supplier a rating of A-10 under General Preference Order P-84 on each of these orders. The items of equipment so purchased were not sold on orders bearing a preference rating, nor were they used to replace inventory sold on orders bearing a preference rating, and the extension of these ratings constituted a violation of General Preference Rating Order P-84. At the time the aforesaid sale and purchases were made, R. B. Davis had in his possession copies of Limitation Order L-79 and General Preference Order P-84, and he knew of the provisions thereof. Therefore, the violations aforesaid were wilful.

These violations of Limitation Order L-79 and General Preference Order P-84 have hampered and impeded the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board. In view of the foregoing, *It is hereby ordered, That:*

§ 1010.310 Suspension Order S-310.

(a) Deliveries of material to R. B. Davis, individually or doing business as R. B. Davis Company, or otherwise, his successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference ratings shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other order or regulation of the War Production Board, except as specifically authorized in writing by the War Production Board.

(b) No allocation shall be made to R. B. Davis, individually or doing business as R. B. Davis Company, or otherwise, his successors and assigns, of any material the supply or distribution of which is governed by any order of the War Production Board, except as specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve R. B. Davis, individually or doing business as R. B. Davis Company, or otherwise, from any

restriction, prohibition, or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect May 8, 1943, and terminate August 8, 1943, after which latter date the restrictions contained in this order shall be of no further effect.

Issued this 5th day of May 1943.

(g) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(h) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(i) *Communications to the War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Textile, Clothing and Leather Division, Washington, D. C., Ref., L-99.

PART 1041—PRODUCTION, TRANSPORTATION,
REFINING AND MARKETING OF PETROLEUM[Preference Rating Order P-98-c, as
Amended May 6, 1943]

To facilitate sales of idle or excess materials, equipment and facilities by persons engaged in the petroleum industry to other persons engaged in the petroleum industry and to control the acquisition of materials by persons engaged in the petroleum industry, the following order is deemed necessary and appropriate in the public interest and to promote the national war effort:

§ 1041.3 *Preference Rating Order P-98-c*—(a) *Definitions*. (1) "Operator" means any person to the extent that he is engaged in the petroleum industry.

(2) "Surplus material" means any new or used item of material (including without limitation equipment and facilities) usable for purposes other than scrap which is not required or scheduled for use during the succeeding 90 days.

(3) All other definitions of Preference Rating Order P-98-b shall apply in this order.

(b) *Sales of material between operators*. (1) Notwithstanding the provisions of Priorities Regulation No. 1, as amended from time to time, any operator may sell or transfer to any operator material from the seller's or transferor's stocks or inventories, and any such sale or transfer shall be expressly permitted within the terms of Priorities Regulation No. 13, as amended from time to time.

(2) Notwithstanding the provisions of Priorities Regulation Nos. 1 and 13, as amended from time to time, any operator may sell or transfer to any supplier, for direct sale or transfer by the supplier to another operator, material from the stocks or inventories of the operator.

(3) Where any material is to be used by an operator outside of the United States, its territories or possessions, no operator may sell, transfer or accept delivery of such material under the provisions of this paragraph (b) unless Form PD-470 is filed with the Petroleum Administration for War prior to any such sale or transfer. For the purposes of this subparagraph Form PD-470 will be treated as an information form only and not as an application.

(c) *Restrictions on acquisition and use of materials*. (1) The provisions of CMP Regulation No. 2 and paragraph (f) of CMP Regulation No. 5 shall not be applicable to the sale, delivery, or transfer of material or the use of implementing documents under the provisions of this order. The following provisions of this paragraph (c) shall apply.

(2) No operator or supplier may deliver to any operator, and no operator may accept delivery of, any material for ultimate use in the United States, its territories or possessions, or the Dominion of Canada, in a quantity which if accepted by the operator would result in surplus material for that operator.

(3) No operator may submit a contract or purchase order, effect a sale or transfer authorized by the provisions of paragraph (b) of this order, or apply or extend priorities assistance to obtain delivery of any material for ultimate use

in the United States, its territories or possessions or the Dominion of Canada in a quantity which if accepted by the operator would result in surplus material for that operator.

(4) On and after June 1, 1943, no operator who is required to obtain a serial number under the provisions of the PAW-Materials Redistribution Program No. 2 may submit a contract or purchase order, effect a sale or transfer authorized by the provisions of paragraph (b) of this order, or apply priorities assistance to obtain delivery of any material unless such serial number has been assigned and is in effect prior to such submission, sale, transfer or application of priorities assistance and the serial number is clearly identified upon the contract, purchase order or other document used in completing the transaction.

(5) Any operator or supplier may deliver to any operator, and any operator may accept delivery of, material for ultimate use outside of the United States, its territories or possessions, or the Dominion of Canada only where the operator accepting delivery of such material secures priorities assistance in conformity with the provisions of Priorities Regulation No. 9 and Forms PD-311 or PD-311-c, as they may be amended from time to time.

(d) *Participation in Materials Redistribution Program*. Where any material is to be used by an operator in the United States, its territories or possessions, such operator shall file such applications as are required by the PAW-Materials Redistribution Program No. 2 and shall participate in such program to the extent required by its terms and provisions. Any operator required to obtain a serial number under the provisions of the PAW-Materials Redistribution Program No. 2 may be deprived of priorities assistance where a determination has been made that such operator has surplus material which he has not made available for redistribution in accordance with such program.

(e) *Communications and appeals*. (1) All reports which may be required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed:

(i) By any person located in the United States, its territories or possessions, or elsewhere other than the Dominion of Canada to: Petroleum Administration for War, Interior Building, Washington, D. C., Ref.: P-98-c.

(ii) By any person located in the Dominion of Canada to: Office of Oil Controller, Dominion of Canada, Toronto, Canada, Ref.: P-98-c.

(2) Any person affected by this order or the applicable provisions of Part 1 of the PAW-Materials Redistribution Program No. 2, who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, may file an appeal with the Petroleum Administration for War, setting forth the pertinent facts and the

reasons such person considers that he is entitled to relief. Such appeal shall be made by filing a letter in triplicate with the Director of Materials, Petroleum Administration for War, Interior Building, Washington, D. C., Ref.: P-98-c. Action with respect to this order and the PAW-Materials Redistribution Program No. 2 may thereupon be taken as is deemed appropriate.

(f) *Applicability of orders and regulations*. Except as provided in paragraph (c) (1), this order does not authorize acquisition, receipt or use of any material by any person in violation of any inventory, quota or use restrictions imposed by any order or regulation. This order and all transactions affected thereby are subject to the applicable provisions of any regulation issued by the War Production Board, as amended from time to time.

(g) *Violations*. Any person who willfully violates any provision of this order or who willfully furnishes false information to the War Production Board in connection with this order is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance by the War Production Board.

Issued this 6th day of May 1943.

Amended May 6, 1943]

PLUMBING FIXTURE FITTINGS AND TRIM

Section 1076.6 *Schedule V to Limitation Order L-42, as amended* is hereby amended to read as follows, effective July 5, 1943.

§ 1076.6 *Schedule V to Limitation Order L-42*—(a) *Definitions*. For the purpose of this schedule:

(1) "Producer" means any person who manufactures, assembles or fabricates fittings or trim.

(2) "Fittings and trim" means plumbing fixture fittings and plumbing fixture trim.

(3) "Copper base alloy" means any alloy metal in the composition of which the percentage of copper metal by weight equals or exceeds 40% of the total weight of the alloy.

(b) *Limitations*. Pursuant to Limitation Order No. L-42, the following specific limitations are hereby established for the manufacture of fittings and trim:

(1) No copper or copper base alloy shall be used in the manufacture of any fittings or trim except the articles specified on List A, and then only provided it

does not exceed the weight specified for each item.

(2) No zinc shall be used in the manufacture of any fittings or trim other than the articles specified on List B, except for plating, coating or galvanizing.

(3) No metal except zinc or lead shall be used for plating, coating or galvanizing.

(4) No metal shall be used in the manufacture of any fittings or trim on list C.

(5) No metal other than ferrous, lead, die-cast zinc, copper base alloy or copper may be used as the base metal in the manufacture of fittings or trim.

(c) *General exceptions.* The prohibitions and restrictions contained in this Schedule shall not apply to the manufacture of any fittings or trim or any part thereof which is being produced:

(1) Under a specific contract or sub-contract for use in chemical and research laboratories, abattoirs, food packing and processing plants, hospitals, clinics, and dispensaries, where and to the extent that the chemical or aseptic properties or mechanical construction make the use of other materials impracticable. Such use shall not be deemed impracticable for trim for ordinary plumbing fixtures.

(2) Under a specific contract or sub-contract for use as part of the equipment of any aircraft or vessel other than pleasure craft, where corrosive action or weight makes the use of other materials impracticable.

(d) *Effective date.* After July 5, 1943, no fittings or trim which does not conform to the limitations established by this Schedule shall be produced by any producer.

PART 1078—JEWELRY

[General Limitation Order L-45 as Amended May 6, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of materials and facilities used in the manufacture of jewelry for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1078.1 *General Limitation Order L-45—(a) Definitions.* For the purposes of this order:

(1) "Jewelry" means all articles commonly known as jewelry, used primarily for personal adornment and designed to be worn on or about the person, including but not limited to mesh bags, vanity cases, compacts, cigarette cases, watch bracelets, jewelry findings and jewelry chains, but not including watches.

(2) "Manufacturer" means any person engaged in the business of manufacturing or assembling jewelry or parts specifically intended for incorporation into jewelry.

(3) "Karat gold" means karat gold as defined in United States Commercial Standard CS67-38 (issued by the National Bureau of Standards), containing less than 40% by weight of copper. (Gold alloys containing 40% or more by weight of copper are governed by the provisions of Order M-9-c, as amended.)

(4) "Palladium" includes the total weight of any palladium alloy containing 10% or more of palladium by weight.

(5) "To produce jewelry" means for a manufacturer

(i) To perform his last manufacturing or assembling operations on jewelry. If another manufacturer later performs additional manufacturing or assembling operations on the same jewelry, such other manufacturer shall also be deemed to be producing jewelry.

(ii) To remount or change the size, shape, form or function of jewelry, even though no additional karat gold or palladium is added.

"To produce jewelry", however, does not include the following:

(iii) To size a ring for the ultimate consumer when material is removed or when material is added for the purpose of sizing alone; or

(iv) To add one or more stones, pearls or jewels to an otherwise finished article, and to polish such article.

(b) *General restrictions.* (1) During the period beginning April 15, 1943, and ending June 30, 1943, inclusive, no manufacturer shall produce jewelry containing more karat gold than 18 $\frac{3}{4}$ % of the amount of karat gold contained in the jewelry produced by him during 1941.

(2) During the period beginning April 15, 1943, and ending June 30, 1943, inclusive, no manufacturer shall produce jewelry containing more palladium than 18 $\frac{3}{4}$ % of the amount of palladium contained in the jewelry produced by him during 1941.

(3) In addition to the amount of karat gold and palladium which a manufacturer may use during the period beginning April 15, 1943, and ending June 30, 1943, inclusive, pursuant to paragraphs (b) (1) and (b) (2) of this order, a manufacturer may use during such periods instead of the amount of platinum contained in jewelry produced by him during 1941:

(i) An amount of karat gold equal to 25% of such platinum, or

(ii) An amount of palladium equal to 10 $\frac{1}{2}$ % of such platinum, or

(iii) An amount of karat gold equal to 25% of any portion of such platinum

plus an amount of palladium equal to 10½% of the remaining portion of such platinum.

(4) During the period of three months beginning July 1, 1943, and during each succeeding period of three months until otherwise ordered, no manufacturer shall produce jewelry containing more karat gold than 12½% of the amount of karat gold contained in the jewelry produced by him during 1941.

(5) During the period of three months beginning July 1, 1943, and during each succeeding period of three months until otherwise ordered, no manufacturer shall produce jewelry containing more palladium than 12½% of the amount of palladium contained in the jewelry produced by him during 1941.

(6) In addition to the amount of karat gold and palladium which a manufacturer may use during the period of three months beginning July 1, 1943, and during each succeeding period of three months until otherwise ordered, pursuant to paragraphs (b) (4) and (b) (5) of this order, a manufacturer may use during such periods instead of the amount of platinum contained in jewelry produced by him during 1941:

(i) An amount of karat gold equal to 16½% of such platinum, or

(ii) An amount of palladium equal to 7% of such platinum, or

(iii) An amount of karat gold equal to 16½% of any portion of such platinum plus an amount of palladium equal to 7% of the remaining portion of such platinum.

(7) The restrictions contained in paragraphs (b) (1) through (b) (6) inclusive of this order shall not apply to any manufacturer who, during the period beginning April 15, 1943, and ending June 30, 1943, inclusive and during each succeeding period of three months until otherwise ordered, produces jewelry containing a total aggregate weight of karat gold and palladium less than 250 ounces: *Provided, That*

(i) Such manufacturer produced jewelry during 1941, and

(ii) Such manufacturer does not produce jewelry containing a greater total aggregate weight of karat gold and palladium than the amount contained in the jewelry produced by him during 1941, plus

(a) An amount of karat gold equal to 33½% of the platinum contained in jewelry produced by him during 1941, or

(b) An amount of palladium equal to 14% of the platinum contained in jewelry produced by him during 1941, or

(c) An amount of karat gold equal to 33½% of any portion of the platinum contained in jewelry produced by him during 1941, plus an amount of palladium equal to 14% of the remaining portion of such platinum.

(8) The restrictions contained in this order shall not apply to the use of karat gold and palladium in the repair of articles of jewelry, provided that no more karat gold and palladium by weight is used for such repairs than 5% of the total weight of karat gold and palladium contained in the article being repaired. In such cases where the repair of articles

of jewelry involve the use of more karat gold and palladium than the 5% specified above, such repair operations shall be deemed to be production of jewelry operations and the total weight of karat gold or palladium used in such operations shall be included as part of the karat gold or palladium such manufacturer is permitted to use in the production of jewelry specified in paragraph (b) of this order.

(c) *Applicability of other orders.* In so far as any other order heretofore or hereafter issued by the Office of Production Management or War Production Board, including Copper Conservation Orders MI-9-c and MI-9-c-2, as amended from time to time, limits the use of any material in the production of jewelry to a greater extent than the limits imposed by this order, the restrictions in such other order shall govern unless otherwise specified therein.

(d) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

(e) *Avoidance of excessive inventories.* No manufacturer of jewelry shall accumulate, for use in the manufacture of jewelry, inventories of raw materials, semi-processed materials or finished parts in quantities in excess of the minimum amount necessary to maintain production at the rates permitted by this order.

(f) *Reports.* (1) Each manufacturer shall file with the War Production Board on or before April 30, 1943, a report on Form PD-797, showing the amount of karat gold, the amount of palladium, and the amount of platinum by weight contained in the jewelry produced by him during the year 1941, together with a statement as to whether such report is based on written records or on estimates.

(2) Each manufacturer shall file with the War Production Board on or before April 30, 1943, and on or before the 15th day of each third calendar month thereafter, a report on Form PD-797, showing the amount of karat gold and the amount of palladium, by weight, contained in the jewelry produced by him during the preceding calendar quarter, and amount of copper by weight used by him during such quarter in alloying gold for use in jewelry.

(g) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining any further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(h) *Appeals.* Any appeal from the provisions of this order must be made on Form PD-500.

(i) *Communications.* All reports required to be filed hereunder and all com-

munications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Consumers Durable Goods Division, Washington, D. C., Ref: L-45.

Issued this 6th day of May 1943.

PART 3110—TEXTILE, FIBER, CLOTHING AND LEATHER MACHINERY

[General Limitation Order L-215 as Amended May 6, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain critical materials used in the manufacture of textile, fiber, clothing and leather machinery for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3110.1 *General Limitation Order L-215—(a) Priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of all the priorities regulations of the War Production Board, as amended from time to time.

(b) *Definitions.* For the purposes of this order:

(1) "Producer" means any person (including any agency or department of the United States Government) producing, processing or finishing any textiles, fibers, or leather, or any product made therefrom.

(2) "Processing machinery" means any specialized machinery or parts therefor (whether new, used, reconditioned, rebuilt) for the production, fabrication, handling, preparation, processing, finishing, sorting, grading of, or for the performance of any operation upon, his products by any producer; but shall not include general types of machinery or parts, such as boilers, motors, cranes, tractors, etc., which are commonly used by all industries, or any machinery covered by General Limitation Order L-91.

(3) "Fabricator" means any person constructing, assembling, reconditioning or rebuilding processing machinery, as herein defined.

(c) *Restrictions on production and purchases of machinery—(1) Prohibition upon unauthorized orders.* Except as provided in subparagraphs (2), (3) and (4) of this paragraph (c), no producer shall order or accept delivery of, and no fabricator shall produce, accept any order for, or deliver, any processing machinery (whether new, rebuilt, reconditioned or used) upon any order hereafter placed unless specifically authorized on Form PD-744 or authorized or given a preference rating on Form PD-200.

(2) *Procedure for authorization of orders.* Producers who do not obtain authorizations or preference ratings on Form PD-200 shall apply for authorizations to acquire or accept delivery of processing machinery by filing with the War Production Board an application on Form PD-744. The War Production

Board may thereupon, if it shall deem it necessary or appropriate in the public interest and to promote the national defense, authorize the acquisition or delivery of such processing machinery, specifying the fabricator or other person who is to sell or deliver the same. Such authorization shall be in lieu of any authorization required by General Limitation Order L-83.

(3) *Scheduling of production and sales by fabricators.* Except as provided in paragraph (c) (4) below, every fabricator shall file with the War Production Board his production and sales schedules for processing machinery. Schedules covering industrial sewing, clothing, shoe and leather machinery proposed to be produced during 1943 shall be filed on or before January 11, 1943, on Form PD-745, and subsequent schedules shall be filed on such dates and for such periods as may be required by supplementary orders issued from time to time. Schedules relating to ginning and delinting machinery shall be filed on Form PD-745 on such dates and for such periods as the War Production Board shall direct in writing. Schedules relating to textile machinery shall be filed on or before the fifteenth day of each month on Form PD-746.

Upon receipt of each form, the War Production Board shall either approve, or disapprove in whole or part, the schedules shown thereon, as it shall determine to be necessary in the public interest or to promote the national defense, and shall return a copy of the form to the fabricator with its determination noted thereon.

(4) *Exempted transactions.* (i) This order shall not be construed to require the filing of schedules by fabricators or to prohibit the placing or acceptance of orders or delivery or acquisition of used processing machinery to fill all or any part of an order or group of orders amounting in the aggregate for each type of machine to less than the following dollar amounts:

(a) Used textile machinery—\$500.

(b) Used or rebuilt shoe and leather working machinery when sold (but not when leased).

(1) Shoe manufacturing machinery—\$200, except that all power-driven eyeletting machinery must receive approval.

(2) Tanning machinery—\$200.

(3) Shoe repairing machinery—\$50.

(4) All other leather working machinery—\$200.

(c) Used or rebuilt industrial sewing machines, when sold, leased or rented, of those models the new prices of which, as of October 1, 1941, did not exceed \$175.

(d) Used or rebuilt clothing making machinery when sold for \$100 or less, or when leased or rented, if the used or rebuilt sale price would be \$100 or less.

(e) Used (but not rebuilt) ginning or delinting machinery.

Provided, That no one textile and fiber products producer shall in any

one calendar month place orders for, or acquire or receive delivery of, an aggregate (from all sources of supply combined) of more than the highest value specified above for the type of machinery purchased by such producer.

(ii) This order shall not be construed to prohibit any dealer from purchasing used parts or used processing machinery from a fabricator or another dealer for purposes of resale, or to prohibit any fabricator from selling or delivering such parts or machinery to such dealer: *Provided, That this provision shall not exempt the subsequent disposition of such machines and parts by the dealers from the provisions of this order.*

(d) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance by the War Production Board.

(e) *Communications to the War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Textile, Clothing and Leather Division, Washington, D. C., Reference L-215.

(f) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(g) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as may be required by said Board from time to time.

(h) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, purchases, production and sales.

Issued this 6th day of May 1943.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

INTERPRETATION 1

The word "parts" in line 2 of paragraph (b) (2) does not include parts purchased or delivered for the purpose of maintaining or repairing machinery already installed in any producer's plant, but does include parts purchased for improving, adding to, or expanding such machinery.

PART 3233—LUMBER [Limitation Order L-230] WESTERN LUMBER

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of Western lumber for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3233.11 *Limitation Order L-230—*
(a) *Definitions.* For the purposes of this order:

(1) "Restricted Western lumber" means any sawed lumber (except shingles, lath, or railroad cross-ties) of any size or grade, whether rough, dressed on one or more sides or edges, dressed and matched, shiplapped, worked to pattern, or grooved for splines, of the following species produced in Washington, Oregon, California, Idaho, Montana, Wyoming, Nevada, Utah, Colorado, Arizona, New Mexico or South Dakota: Ponderosa pine, Idaho white pine, sugar pine, lodgepole pine, white fir, Western white spruce, Engelmann spruce.

(2) "Producer" means any plant which processes, by sawing, edging, planing or other comparable method, 25% or more of the total volume of logs and lumber purchased or received by it, and which sells or otherwise disposes of the product of such processing as lumber; except that "Producer" does not include any sawmill which produced less than 10,000 feet, board measure, of Western lumber per average day of eight hours of continuous operation during the six calendar months preceding the month in which this order takes effect, or which currently so produces on the average less than 10,000 feet, and does not include any establishment known in the trade as a local retail yard whose operations are confined principally to distributing lumber locally and which processes as an incident thereto for the servicing of customers, and does not include any sawmill engaged in local retail distribution in areas not served by retail yards, to the extent that it is so engaged.

(3) "Volume" means board foot volume processed or sold within the six calendar months immediately prior to the month in which the transaction affected by this order occurred.

(4) "Procuring agency" means the Central Procuring Agency of the Construction Division of the Corps of Engineers of the United States Army.

(b) *General restrictions.* No producer shall sell, ship or deliver (including delivery by a producer to any distribution yard, box factory or cut-up plant of such producer) any restricted Western lumber except that:

(1) Any producer may sell, ship or deliver (either directly or through one or more intervening persons) any restricted

Western lumber to or for the account of the Procuring Agency or to or for the account of any contractor or other person designated by such agency, but only if there is endorsed on the purchase order or contract for such lumber a statement in substantially the following form, signed manually or in the manner provided in Priorities Regulation No. 7:

All restricted Western lumber covered by this purchase order (or contract) is to be sold, shipped or delivered to, or received by, the Procuring Agency or a contractor or other person designated by such Agency on a specific purchase order (or contract) already entered, in compliance with paragraph (b) (1) of Limitation Order L-290, with the terms of which I am familiar.

Provided, however, That when a producer has received written directions from the Procuring Agency to sell, ship or deliver restricted Western lumber to any contractor or other person designated by such Procuring Agency, such producer may comply with such directions and no such endorsed purchase order or contract shall be required from such contractor or other person.

(2) Any producer may sell, ship or deliver (either directly or through one or more intervening persons) any restricted Western lumber to be delivered to or for the account of the Agencies or Governments specified in paragraphs (b) (1) or (b) (2) or § 944.1, Priorities Regulation No. 1, as amended from time to time, or to or for the account of the contractors or sub-contractors of such Agencies or Governments for use on specific contracts or sub-contracts; or which is to be physically incorporated into material, or used for packing, boxing, crating or stowing for shipment of material, or physically incorporated into production facilities (such as patterns, flasks, forms, jigs, vats, tanks, work tables, work benches or scaffolding) used in the production of any material,—which will be delivered to such Agencies or Governments, or to such contractors or sub-contractors for use on specific contracts or sub-contracts; but only if there is endorsed on the purchase order or contract for such restricted Western lumber a statement in substantially the following form signed manually or in the manner provided in Priorities Regulation No. 7;

(3) Any restricted Western lumber which was actually in transit on May 13, 1943, may be delivered to its ultimate destination.

(4) Any producer may sell, ship or deliver restricted Western lumber to any other producer.

(5) Any producer may sell, ship or deliver any restricted Western lumber upon the specific authorization of the War Production Board on Form PD-872, or upon the direction of the War Production Board pursuant to paragraph (d) of this order. Any person seeking authorization on Form PD-872 shall make application on such form in the manner prescribed therein (Copies of form PD-872 may be obtained at local field offices of the War Production Board). Nothing in this order shall be construed to prohibit any person from purchasing restricted Western lumber from a producer subject to authorization on form PD-872 being granted prior to shipment or delivery.

Each endorsement made under the provisions of this order shall constitute a representation to the producer and to the War Production Board that the restricted Western lumber referred to therein will be sold, shipped, delivered or received in accordance with such endorsement.

No producer shall make delivery under this order who has reason to believe that the purchaser has furnished a false certification; and no person shall falsely furnish the certification specified above.

Any producer may rely upon the facts furnished in the above mentioned certification and shall not be responsible for any action taken by him under this order in reliance upon inaccurate or untrue statements therein, unless he has reason to believe that such statements are inaccurate or untrue.

(c) *Limitation on purchase for construction.* Notwithstanding the foregoing provisions, no person shall purchase from a producer any of the following grades of restricted Western lumber for use in the erection, construction, reconstruction, restoration or remodeling of any building, structure or project (including lumber for additions or extensions and maintenance or repair, and including lumber for production of fabricated articles used in construction such as doors, windows, sashes and the like), except as may be specifically authorized under paragraph (b) (5) of this order, or upon the direction of the War Production Board pursuant to paragraph (d) of this order; No. 1, No. 2, No. 3, No. 4, No. 5 common; inch shop, 5/4 and thicker No. 2 shop and 5/4 and thicker No. 3 shop; No. 1 box, No. 2 box; No. 1 dimension, No. 2 dimension.

(d) *Allocations.* The War Production Board may, from time to time, allocate

specific quantities or percentages of production or shipments by any person of restricted Western lumber, to specified persons or for specified uses. It may also direct the manner and quantities in which delivery shall be made to specified persons or for specified uses (including directions to any person to reserve any part of his production for distribution within specified areas as the War Production Board may direct); and may direct or prohibit particular uses of restricted Western lumber or the production by any person of particular items of restricted Western lumber. Such allocations and directions will be made to insure the satisfaction of war requirements of the United States, both direct and indirect, and they may be made, in the discretion of the War Production Board, without regard to any preference ratings assigned to particular purchase orders or contracts. The War Production Board may also take into consideration the possible dislocation of labor and the necessity of keeping a plant in operation so that it may be able to fulfill war and essential civilian requirements.

(e) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board as amended from time to time.

(f) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate referring to the particular provision appealed from and stating fully the grounds of the appeal.

(g) *Violations.* Any person who willfully violates any provision of this order or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(h) *Communications.* All communications concerning this order shall be addressed as follows: Lumber and Lumber Products Division, War Production Board, Washington, D. C. Ref.: L-290.

This order shall take effect May 13, 1943.

Chapter XI—Office of Price Administration
PART 1390—MACHINERY AND TRANSPORTATION EQUIPMENT

[NPR 375]

SALES OF USED INDUSTRIAL SEWING MACHINES
AND RENTAL RATES FOR NEW AND USED INDUSTRIAL SEWING MACHINES

In the judgment of the Price Administrator it is necessary and proper to establish maximum prices for sales of used industrial sewing machines, and maximum prices for rentals of new and used industrial sewing machines, which differ in some respects from the maximum prices heretofore established for such sales and rentals by Maximum Price Regulation No. 136, as amended—Machines and Parts, and Machinery Services.¹ The Price Administrator has ascertained and given due consideration to the prices of used industrial sewing machines and the rentals for new and used industrial sewing machines prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator the maximum prices established by this Maximum Price Regulation are and will be generally fair and equitable and will effectuate the purposes of the Act. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and in accordance with Revised Procedural Regulation No. 1,² issued by the Office of Price Administration, Maximum Price Regulation No. 375 is hereby issued.

AUTHORITY: §§ 1390.151 to 1390.163, inclusive, issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 8250, 7 F.R. 7871.

§ 1390.151 *Commodities and transactions covered by this regulation.* (a) This regulation establishes maximum prices for the sale of used industrial sewing machines and for the rental of new and used industrial sewing machines. From July 22, 1942, the effective date of Maximum Price Regulation No. 136, as amended—Machines and Parts, and Machinery Services, until the effective date of this regulation, maximum prices for the sale of used industrial sewing machines and for the rental of new and used industrial sewing machines were established by Maximum Price Regulation No. 136, as amended. Maximum prices for the sale of new industrial sewing machines and parts, or for the service of repairing, rebuilding, testing or cleaning used industrial sewing machines are not covered by this regulation, but remain subject to Maximum Price Regulation No. 136, as amended.

(b) Maximum prices for the sale of used industrial sewing machines and for the rental of new or used industrial sewing machines are based upon the October 1, 1941, sales prices of new machines, as approved, and in some instances adjusted by the Office of Price Administration. Maximum prices for virtually all types of used industrial sewing machines are set forth in § 1390.165, Appendix A, of this regulation under separate headings for each manufacturer. Appendix A is composed of four columns. Column 1—"Model No." identifies the particular model or type of machines. Column 2—"Base Price" sets forth the figure upon which the maximum rental or sale price is determined and is, in general, the October 1, 1941, sales price of the machine, when new. Column 3—"Maximum as-is, 55 percent" is equal to 55 percent of "Base Price" and is the maximum sale price for a used machine which is not rebuilt and guaranteed. Column 4—"Maximum Rebuilt and Guaranteed, 65 percent" is equal to 65 percent of "Base Price" and is the maximum sale price for a rebuilt and guaranteed used machine. The maximum prices for the sale of used machines which are not listed in Appendix A are established by the formula provided in § 1390.156.

(c) The maximum rental price for new and used industrial sewing machines listed in § 1390.165, Appendix A, is provided for in § 1390.153. The maximum rental price for new and used industrial sewing machines not listed in Appendix A, is provided for in § 1390.156.

§ 1390.152 *Prohibition against sales or leases at higher than maximum prices.*

(a) On and after May 11, 1943, regardless of any contract, agreement, lease or other obligation:

(1) No person shall sell, negotiate the sale of, or deliver any used industrial sewing machine and no person shall lease or deliver for rental any industrial sewing machine, or accept a rental price

for such machine, at a price higher than the maximum price established by this regulation.

(2) No person shall in the course of trade or business buy or receive any used industrial sewing machine or rent or receive for rental or pay a rental price for any industrial sewing machine at a price higher than such maximum price.

(3) No person shall agree, offer, solicit, or attempt to do any of the acts prohibited in subparagraphs (1) and (2).

(b) The provisions of paragraph (a) (2) of this section shall not be applicable to any war procurement agency or any contracting officer thereof, and any such contracting officer or any paying finance officer shall be relieved of any and every liability, civil or criminal, imposed by this regulation or by the Emergency Price Control Act of 1942, as amended.

§ 1390.153 *Maximum prices; sales of used industrial sewing machines.*—(a) *General rules.* (1) The maximum price established by this regulation for the sale of any used industrial sewing machine listed in § 1390.165, Appendix A, is for the head only, and does not include the table, stand, attachments or accessories.

(2) The maximum price established by this regulation for the sale of any used industrial sewing machine includes all commissions and service charges paid to, or for the account of, the seller, any agent of the seller or buyer, or any other person and such commissions or service charges may not be paid or received in addition to the maximum price.

(3) The maximum price established by this regulation for the sale of any used industrial sewing machine to a purchaser for use, rather than for resale, includes the expense of dismantling the machine, if any, and the expense of loading the machine for shipment to the purchaser and such expenses may not be paid or received in addition to the maximum price.

(4) The maximum price established by this regulation for the sale of any used industrial sewing machine to a purchaser for use located within the city in which the seller is located is a delivered price to such purchaser's plant and the cost of transportation of such machine to such purchaser's plant is included within the maximum price and may not be paid or received in addition to the maximum price.

(5) The maximum price established by this regulation for the sale of any used industrial sewing machine to a purchaser for use located outside the city in which the seller is located is f. o. b. truck, freight car or other means of transportation at the point of shipment. The point of shipment means the point at which the machine is loaded on a conveyance for transportation directly to the purchaser. The cost of transportation of such machine to the purchaser's plant is not included within the maximum price, and such transportation costs, not exceeding the applicable maximum price therefor, may be paid or received in addition to the maximum price.

(6) The maximum price established by this regulation for the sale of any used industrial sewing machine to a dealer, whether by a user or by another dealer, does not include the expense of dismantling the machine, if any, of loading the machine for shipment to the purchasing dealer, and of transportation of the machine to the purchasing dealer and such expenses, not exceeding the applicable maximum prices therefor, may be paid or received in addition to the maximum price, if billed or invoiced separately.

(b) *Maximum prices for "rebuilt and guaranteed" machines.* (1) The maximum price for any rebuilt and guaranteed used industrial sewing machine shall be the price set forth in § 1390.165, Appendix A, Column 4, for such used industrial sewing machine, plus the extra charges allowed in paragraph (d) below.

(2) A "rebuilt and guaranteed" used industrial sewing machine is one in which (i) all worn or missing components, if any, have been replaced or repaired, (ii) has been tested under power so as to prove that it has a performance substantially equivalent to that of the industrial sewing machine when new, (iii) is warranted in writing by the seller and is expressly invoiced as rebuilt and guaranteed, and (iv) is accompanied by a binding guarantee of satisfactory operation for a period of not less than sixty days from date of delivery.

(3) In the event of a sale by a government agency, such agency may substitute for the warranty, the invoicing and the guaranty of satisfactory operation, provided in paragraph (2) above, a written certificate by a qualified person who is not engaged in the business of selling used industrial sewing machines and who is approved by the purchaser, to the effect that (i) he has inspected the industrial sewing machine, (ii) all worn or missing components which should be replaced or repaired for satisfactory operation, if any, have been replaced or repaired, and (iii) the used industrial sewing machine has a performance substantially equivalent to that of the industrial sewing machine when new.

(c) *Maximum prices for machines which are not rebuilt and guaranteed.* The maximum price for any other used industrial sewing machine, shall be the price set forth in § 1390.165, Appendix A, Column 3, for such used industrial sewing machine, plus the extra charges allowed in paragraph (d) below.

(d) *Extra charges.* In computing the maximum price of any used industrial sewing machine listed in § 1390.165, Appendix A, a seller may add the following charges, if billed or invoiced separately, to the price in Column 3 or Column 4, as the case may be:

(1) Any tax upon the sale or delivery of such used industrial sewing machines;

(2) The price of any tables, stands, attachments, accessories, extra equipment, or parts, whether new or used, pertaining to industrial sewing machines, sold and delivered with the machine, but not in excess of the maximum price therefor established by Maximum Price Regulation No. 136, as amended.

§ 1390.154 *Maximum prices; Sales between dealers of machines which are not rebuilt and guaranteed.* Notwithstanding any other provision of this regulation, a dealer may sell to another dealer at private sale, but not at auction, a used industrial sewing machine which is not rebuilt and guaranteed, for a price not in excess of 60 percent of the base price for such machine as set forth in § 1390.165, Appendix A, Column 2. However, if the purchasing dealer pays more than 55 percent of the base price, he must give the seller a statement and send to the Office of Price Administration, Washington, D. C., a copy of such statement, setting forth the following: (1) The identification of the industrial sewing machine by manufacturer, style number or model number, type and serial or other number; (2) the maximum price; (3) the sales price and (4) a statement that he will, within a period of not more than four months from the date of sale, rebuild the machine so that it will be available for sale as a "rebuilt and guaranteed" industrial sewing machine as defined in § 1390.153 (b).

§ 1390.155 *Maximum prices; leases of new and used industrial sewing machines—(a) General rules.* (1) The maximum price established by this regulation for the rental of any industrial sewing machine to a lessee located within the city in which the lessor is located includes the expense of loading the machine for shipment to the lessee's plant, of installing the machine in the lessee's plant, dismantling the machine upon the termination of the rental period, loading the machine for reshipment to the lessor, and the cost of transportation of the machine to and from the lessee's plant, and such expenses may not be paid or received in addition to the maximum rental price.

(2) The maximum price established by this regulation for the rental of any industrial sewing machine to a lessee located outside the city in which the seller is located includes the expense of loading the machine for shipment to the lessee's plant. Article I—Purpose and Scope of Regulation

SECTION 1 *What this regulation does.* This regulation fixes dollar-and-cent ceiling prices on pork or breakfast sausage, frankfurters, and bologna. On and after May 24, 1943, the date this regulation takes effect, no person may sell, except at retail or to a war procurement agency, and no person in the course of trade or business may buy pork sausage, frankfurters or bologna at prices higher than the prices permitted by this regulation. But lower prices may be charged or paid.

Sec. 2 *How maximum prices are fixed—(a) General instructions.* The ceiling price for any sale is found by looking at paragraph (a) of section 12, which lists the base price per hundred-weight in dollars for each type of sausage. To this price should be added, first, the amount specified in paragraph (b) of that section for the zone in which the point of delivery is located and, then, whatever other additions are made permissible by paragraph (c). The base price, plus the zone differential, plus the permitted additions is the ceiling price.

(b) *Determining the zone in which the point of delivery is located—(1) Point of delivery.* The point of delivery is the point at which local delivery begins if local delivery is made, or the point at which the product is delivered to the buyer, if no local delivery is made.

(i) Local delivery means delivery by any vehicle, other than a rail carrier, made by the seller to the place of business of the buyer. A truck is not a place of business.

(ii) If no local delivery is made, the point at which the product is delivered to the buyer is the point where actual physical possession is taken by the buyer or where the product consigned to the buyer:

(a) Is received by a rail carrier for shipment at the railroad carload rate; or

(b) Is received by a common or contract carrier, other than a railroad; or

(c) Is received by an express company for shipment by express to a purveyor of meals, the charges of such carrier in all three instances being paid directly to such carrier by the buyer.

(2) *Determining the zone.* Having determined the point of delivery, the zone in which such point is located can be found by reference to section 14 of this regulation in which all the zones are described by counties.

Sec. 3 *Relation to other laws and regulations—(a) Relation to other regulations.* (1) The provisions of this regulation supersede the provisions of the General Maximum Price Regulation,¹ and Revised Maximum Price Regulation

No. 169² with respect to sales other than at retail of all sausage which satisfies the definition of pork or breakfast sausage, frankfurters, or bologna given in section 13 (c) of this regulation.

(2) The maximum price at which a person may export pork or breakfast sausage, frankfurters or bologna shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation³ issued by the Office of Price Administration.

(b) *Relation to other laws and to rules and regulations of other governmental agencies.* The provisions of this regulation do not relieve any person from compliance with all rules, regulations and laws of any state, county or municipality or other federal agency.

Sec. 4 *Quality and labeling requirements—(a) What sausage may be sold.* After this regulation takes effect, no sausage may be manufactured for sale, offered for sale, or sold or bought in the course of trade or business which satisfies the definitions of pork or breakfast sausage, frankfurters and bologna given in section 13 (c) of this regulation, unless such sausage meets the requirements for one of the three grades of sausage for which prices are established by this regulation.

(b) *Labeling requirements.* (1) No pork or breakfast sausage, frankfurter or bologna may be manufactured for sale, offered for sale, or sold, or bought in the course of trade or business unless it bears a label in accordance with the provisions of this paragraph stating the kind of sausage, the grade in which it belongs and where the casing affects the price, indicating the type of casing used.

(2) Sausage which meets the definition set forth in section 13 (c) for the AA grade shall be labeled "AA"; that which meets the definitions for the A grade, "A"; and that of the B grade, "B". Such label shall also designate the type of casing by numbers, as follows:

Frankfurters: Sheep casing, 1; hog casing or artificial casing (Skinless), 2.

Bologna: Natural casing, 1; artificial casing, 2.

Pork or breakfast sausage, fresh: Sheep casing, 1; hog casing, 2; artificial casing, 3.

(3) A label satisfying the requirements of this paragraph is required to appear twice for every pound of frankfurters, pork or breakfast sausage, other than bulk, and once on each piece of bologna or pork or breakfast sausage stuffed in casings or cloth bags. The label may be a band or a tag securely affixed to the sausage or printed upon the casing. The kind of sausage, the grade and casing shall also be stamped or printed upon the carton or other immediate container in which the sausage is placed.

(4) The name of the sausage, the grade mark, and the number identifying the kind of casing, or a description of the casing, in which the sausage is sold, must appear on the seller's invoice.

Sec. 5 *Where this regulation applies.* The provisions of this regulation shall apply to the forty-eight states of the

United States and to the District of Columbia.

Article II—Record Keeping and Enforcement

Sec. 6 *Records and reports.* (a) After May 23, 1943, every person making a sale, other than at retail or to a war procurement agency, and every person making a purchase in the course of trade or business of pork or breakfast sausage or frankfurters, or bologna shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, a complete record of each such purchase or sale, showing the date thereof, the name and address of the buyer and of the seller, the price charged and the price received, a description of the product including the grade, the type of casing, or other wrapping employed and the quantity sold.

(b) Such person shall, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942, submit such reports to the Office of Price Administration and keep such other records in addition to, or in place of the records, required in paragraph (a) of this section, as the Office of Price Administration may from time to time require.

Sec. 7 *Indirect price increases.* No person shall evade any of the provisions of this regulation by any scheme or device and no person shall indirectly charge or receive for pork or breakfast sausage, frankfurters, or bologna a price higher than the maximum prices permitted by this regulation. No person shall as a condition of selling any such sausage require a purchaser to buy any other meat or any other product.

Sec. 8 *Licensing and registration.* The provisions of Supplementary Order No. 14 (§ 1305.18, Licensing sellers of meat and meat products) are made applicable to every person making sales subject to this regulation. The effect of making this order applicable is to require a license of all persons selling products for which maximum prices are established by this regulation. A license is automatically granted. It is not necessary to apply for the license, but all sellers may later be required to register. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. No person whose license is suspended may sell any such commodity during the period of suspension.

Sec. 9 *Enforcement.* (a) On and after May 24, 1943, any person violating any provision of this regulation is subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for revocation of licenses provided by the Emergency Price Control Act of 1942, as amended.

Article III—Miscellaneous Provisions

Sec. 10 *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Proce-

¹ 8 F.R. 3096, 3849, 4347, 4486, 4725, 4978, 4848.

² 8 F.R. 5097, 4786, 4844, 5170, 5478, 5634.

³ 8 F.R. 4132.

dural Regulation No. 1⁴ issued by the Office of Price Administration.

Sec. 11 *Adjustable pricing.* Any person may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery. In an appropriate situation, where a petition for amendment or for adjustment or exception requires extended consideration, the Price Administrator may upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

Administration and Personnel

1407.41 *Personnel.* (a) Rationing Order No. 3 shall be administered by the Office of Price Administration through its Local Rationing Administrators, and

its Local Rationing Boards, and such other administrative personnel as it may designate.

(b) The persons referred to in paragraph (a) hereof may be assisted during the registration periods by the chief school officials of the several states, the city and county superintendents of schools, and by the persons who may be appointed to act as School Site Administrators, Registrars, and Trade Rationing Advisors. The School Site Administrators shall be appointed by the city or county school superintendents and the Registrars shall be appointed by the School Site Administrators. The Trade Rationing Advisors shall be appointed by the Local Rationing Boards. The persons enumerated in this paragraph shall serve without compensation and shall be under the supervision of the persons enumerated in paragraph (a) and of the persons who appointed them.

(c) No person participating in the administration of Rationing Order No. 3 shall act officially in connection with any matter arising under Rationing Order No. 3 wherein, by reason of business interests or relationship by blood or marriage, he is unable to act without bias.

§ 1407.42 *Powers and duties.* The persons appointed to administer Rationing Order No. 3 or to assist therein shall have such powers and duties as are provided in Rationing Order No. 3 and any subsequent orders issued by the Office of Price Administration.

§ 1407.43 *Jurisdiction of Board; transfers.* (a) The jurisdiction of each local rationing board shall extend to every consumer, registering unit and establishment registered or required to be registered with it.

[Paragraph (a) as amended by Amendment 44, 8 F.R. 2675, effective 3-1-43]

(b) If a consumer does not reside in the area assigned to the Board with which he is registered, a written application may be filed with the Board having jurisdiction over the area in which the consumer resides for the transfer to it of his registration file. Such application may be made by the consumer or by his authorized agent. The Board with which such application is filed, after ascertaining that the consumer is residing within the area assigned to it, shall notify the Board with which the consumer is registered. The latter Board shall thereupon transfer the registration file of the consumer to the Board to which such application has been made.

(c) If the owner of a registering unit moves his principal business office from the area in which the registering unit is registered, such owner, at his option, may apply in writing to the Board having jurisdiction over the area to which his principal business office has been moved, for the transfer to it of the registration file of the registering unit.

(d) If a registering unit is not registered with the Board having jurisdiction over the area in which is located the office from which the operation of the

registering unit is immediately controlled, the owner, at his option, may apply to such Board in writing for the transfer to it of the registration file of the registering unit.

(e) Whenever an application for the transfer of the registration file of a registering unit is made in accordance with the foregoing provisions the Board to which such application is made shall notify the Board with which the registering unit is registered of the fact that such application has been made. Thereupon the latter Board shall transmit the registration file of the registering unit to the Board to which such application was made; and it shall retain a record of the name and address of the registering unit, the name of the owner, and of the address of his principal business office, and of the designation of the Board to which the registration file is transmitted.

(f) Upon the transfer of the registration file of a consumer or a registering unit in accordance with the foregoing provisions the consumer or registering unit shall thereafter be deemed to be registered with the Board to which such file is transmitted.

§ 1407.44 *Records confidential.* All records of the Office of Price Administration and of the Board relating to sugar rationing shall be confidential and shall be subject to inspection, removal, or other disposition only as provided herein or as the Office of Price Administration may from time to time order. The records shall at all times be available for inspection and use by the Department of Justice of the United States in or out of court. Any person filing a record, or his agent, may examine the record so filed by him if to do so does not interfere with the administration of Rationing Order No. 3. Records may be subpoenaed in any criminal proceeding in which the defendant is the person named in said records or is a person alleged to be in collusion with the person named therein. Records may be subpoenaed in any other action or proceeding if the subpoena is served at least ten (10) days before the return date and if the Price Administrator deems the production of the records in answer to such subpoena is in the interest of national defense and security. Notwithstanding any of the foregoing there may be posted at the office of each Board a list of all consumers who have made application for and received permission to obtain amounts of sugar in addition to sugar authorized by Stamps, except that the names of Intelligence Officers of the armed forces of the United States, or members of law enforcement agencies of the United States, or of any State or political subdivision thereof, whose work requires secrecy shall not be included in any such list.

Consumers

§ 1407.61 *Prohibited deliveries.* On and after April 28, 1942, notwithstanding the terms of any contract, agreement, or commitment, regardless of when made, no person shall make deliv-

ery of sugar to any consumer,⁴ and no consumer shall accept delivery of sugar from any person except upon the surrender to such person by the consumer, pursuant to Rationing Order No. 3, of a stamp or certificate having a total weight value equal to the quantity of sugar delivered: *Provided, however,* That loans of sugar owned for personal use which are repaid in kind in equal quantity may be made between consumers without the surrender of stamps or certificates.

§ 1407.62 *War Ration Book.* Except as is otherwise provided in Rationing Order No. 3, every consumer shall be entitled to obtain War Ration Book One (OPA Form No. R-302) containing War Ration Stamps, upon proper registration and application during the period from May 4 to May 7, 1942, at any designated registration site.

§ 1407.63 *Eligibility for making application for War Ration Book One.* (a) Registration and application for War Ration Book One for all members of the family unit, including those temporarily absent, shall be made by one adult member of the family unit: *Provided, however,* That if there is no adult member of the family unit, the registration and application for the members of the family unit shall be made by the oldest member or by a responsible adult. Any member of a family unit residing in or confined to a hospital, asylum, home, prison or similar institution, whether public or private, during the registration period may be registered, but if such member is likely to be confined for a period exceeding ten days from the time of such registration, the War Ration Book issued for him shall be surrendered to the head of the institution while he is confined therein.

(b) A consumer not a member of a family unit shall register and apply for himself: *Provided, however,* That the registration and application for a minor not a member of a family unit shall be made by his parent or guardian, or by a responsible adult, unless such minor is self-supporting.

(c) A consumer not a member of a family unit shall not be eligible for registration nor entitled to obtain a War Ration Book while confined in an institution of the type described in paragraph (a) of this section.

(d) Registration and application for a consumer not a member of a family unit and not confined to an institution who is so incapacitated as to be unable to register for himself during the registration period shall be made by the individual caring for him or some other individual designated by him. Such individual may be required to show to the satisfaction of the Registrar that he has authority so to act.

§ 1407.64 *Registration.* (a) Every individual registering and making application for a War Ration Book for himself, or for himself and the members of his family unit, or on behalf of any

other person, shall declare the facts required by OPA Form No. R-301 (Application for War Ration Book), including such facts as may be necessary to determine whether the consumer for whom application is made is entitled to a War Ration Book and the number of stamps to be contained therein. Such facts shall be entered by the Registrar in the presence of the person registering, and after completion the Form shall be certified to and signed by such person. If the individual is acting on behalf of another not a member of his family unit, the Registrar shall identify the signature by writing thereunder the word "Agent". When a War Ration Book is issued the Registrar shall record the serial number of the War Ration Book on the Application for War Ration Book form and shall certify to the proper delivery of the War Ration Book by signing the Form.

(b) The Application for War Ration Book form shall, after completion, be filed with the Board whose number is endorsed upon the Form.

§ 1407.65 *Sugar supply of consumers.* The sugar supply of a consumer is the amount of sugar owned by him for personal use; the sugar supply of a family unit is the total of all sugar owned by the members of the family unit for personal use.

§ 1407.66 *Allowable sugar supply.* Each consumer shall be permitted to own 2 pounds of sugar for his personal use without having stamps detached from his War Ration Book.

§ 1407.67 *Issuance of War Ration Books.* (a) Each War Ration Book issued during the registration period shall be completed and signed by the Registrar.

(b) If the sugar supply of a consumer not a member of a family unit exceeds 6 pounds the consumer shall be registered, but no War Ration Book shall be issued for him. If, however, the sugar supply of the consumer exceeds 2 pounds but does not exceed 6 pounds the Registrar shall issue a War Ration Book after first detaching therefrom one stamp, commencing with stamp No. 1, for each pound in excess of 2 pounds. In making computations, fractions of a pound shall be disregarded.

(c) If the sugar supply of the members of a family unit, disregarding fractions of a pound, exceeds the quantity equal to 6 pounds per member, all members shall be registered but no War Ration Book shall be issued to any member of the family unit. If, however, such sugar supply does not exceed a quantity equal to 6 pounds per member, the Registrar shall issue War Ration Books to all members after detaching therefrom one stamp for each pound in excess of a quantity equal to 2 pounds per member. The Registrar shall detach such stamps as nearly equally as possible from the War Ration Books issued to the members of the family unit and shall detach the stamps consecutively commencing with stamp No. 1 of each War Ration Book so issued.

§ 1407.68 *Late registration of consumers.* (a) A consumer who has not

been registered may register and apply for a war ration book at the office of the Board having jurisdiction over the area in which he resides. Such registration shall be made in the same manner and on the same conditions as a registration made during the registration period, except that the application shall be accompanied by an OPA Form No. R-315 on which the applicant shall state: (1) the names of the consumers on whose behalf the application is filed, their addresses on May 4, 1942, their addresses since that date including their present addresses and the dates during which they lived at each address; (2) that such persons have not been registered and the reasons therefor; and (3) such other facts as the Board may require. There shall be submitted with the application such evidence including affidavits as the Board may require to substantiate such statements. The board may not grant the application until it has taken such action as the Office of Price Administration may direct. The number of stamps to be removed from the war ration book shall be determined on the basis of the sugar supply owned on the 4th day of May, 1942, by the consumer if he was not a member of a family unit on such date, or by the members of the family unit of which he was a member on such date. In every case the stamps for any ration periods which have expired shall be detached from the war ration book issued.

[Paragraph (a) as amended by Amendment 41, 8 P.R. 2153, effective 2-22-43]

(b) Each war ration book issued subsequent to the registration period shall be completed and signed by a member of the Board or by its duly authorized agent.

(c) Upon the issuance of a book to a late registrant, the Board shall detach, in addition to those stamps required to be detached by paragraph (a), all stamps required to be detached by Ration Order No. 12.

[Paragraph (c) added by Amendment 34, 8 P.R. 445, effective 1-9-43. Former (c) revoked and (d) redesignated (c) by Amendment 41, 8 P.R. 2153, effective 2-22-43]

§ 1407.69 *Issuance of books to consumers having an excess supply of sugar or who have surrendered their books.* (a) Every consumer who has been registered but who has not been issued a war ration book by reason of the ownership of an excess sugar supply shall be entitled to receive a war ration book by application to the Board at any time subsequent to the commencement of the latest of the ration periods during which stamps become valid having a weight value equal to the excess sugar supply owned on May 4, 1942, (as adjusted by any reduction authorized by Rationing Order No. 3) by the consumer, if not a member of a family unit, or by all the members of the family unit if the consumer was a member of a family unit on such date. At the time of issuing such war ration books the Board shall detach therefrom stamps in weight value equal to such excess sugar supply and any additional stamps applicable to expired ration periods. The Board shall

⁴"Consumer" means any individual who receives sugar for personal use.

also detach therefrom stamps required to be detached by Ration Order No. 12.

(b) A registered consumer who has not been issued a book by reason of the ownership of an excess sugar supply, and a consumer whose book has been surrendered pursuant to the provisions of § 1407.71, § 1407.73, or § 1407.74, shall, by application to the Board, be entitled to receive a book containing stamps Nos. 17 to 28, inclusive, except stamps required to be detached by Ration Order No. 12. If such book has been issued, it shall be surrendered to the Board as a condition precedent to the issuance of the consumer's book pursuant to paragraph (a) of this section or to the return of the consumer's book pursuant to the provisions of § 1407.71, § 1407.73, or § 1407.74.

(c) Before returning a book which has been surrendered to the Board, the Board shall detach therefrom stamps applicable to expired ration periods and all stamps required to be detached by Ration Order No. 12.

[§ 1407.69 as amended by Amendment 40, 8 F.R. 2153, effective 2-22-43]

§ 1407.70 *Surrender and retention of War Ration Books.* (a) Within ten days after the death of a consumer the person having possession of the War Ration Book of the decedent shall surrender it to the Board for cancellation.

(b) [Revoked by Amendment 52, 8 F.R. 4644, effective 4-13-43]

(c) If a consumer is inducted into the armed services of the United States, or leaves the United States for a period of more than thirty days, he shall surrender his War Ration Book to the Board.

§ 1407.71 *Home canning and preserving.* (a) The Board may permit a consumer who has registered in conformity with Rationing Order No. 3 to obtain sugar for the purpose of canning or preserving fresh fruits to be consumed by him or by the family unit of which he is a member, in an amount not to exceed one pound per four quarts of finished canned fruit and one pound per annum per person for use in preparing preserves, jams, jellies or fruit butters; *Provided, however,* That in no event shall the individual or family unit be permitted more sugar than is necessary to can the quantity of fruit which the Board deems to be reasonable giving due consideration to the period within which the fruit will be consumed, the past practice of the individual or family unit with respect to home canning, the prevailing home canning practice in the locality among individuals and families in circumstances similar to those of the applicant, the number of quarts of fruit previously canned at home remaining in the possession of the individual or family unit applying, the availability in the locality of fruit suitable for home canning, and such other circumstances of the applicant or other criteria as the Board deems pertinent to the particular request.

(b) Applications for sugar in accordance with this section shall be made to

the Board on OPA Form No. R-315 by one adult member of a family unit for all members of the unit (or if there is no adult member, by the oldest member or by a responsible person), or by a consumer not a member of a family unit for himself (or if a minor, not self-supporting, by his parent or guardian, or by a responsible adult). The applicant shall state (1) the names of the consumers on whose behalf the application is filed, and the serial numbers of their War Ration Books, if such books have been issued; (2) the number of quarts of fruit canned in the preceding calendar year, or in connection with applications subsequent to the first during any calendar year the number of quarts of fruit canned since the previous application; (3) the number of quarts of fruit then in the possession of the individual or family unit applying; (4) the number of quarts of fruit to be canned during the period for which the application is being made; (5) whether sugar is to be used for preserving; and (6) the excess sugar supply as of the time of registration and any subsequent reductions therein. If the application is for sugar for use only in preparing preserves, jams, jellies, or fruit butters, it shall so state, and the statements with respect to canning fruit shall not be required. The Board shall fix the times and places at which, and the periods for which, applications shall be made. The Board shall grant the application only to the extent it deems proper pursuant to the provisions of this section, and shall issue a certificate for, or reduce the excess sugar supply by, the amount of sugar so allowed: *Provided, however,* That if the excess sugar supply is less than the amount of sugar allowed, such excess supply shall be cancelled and a certificate shall be issued having a weight value equal to the difference. The Board shall deduct from the amount allowed under this section any quantity of sugar allowed prior to May 20, 1942, for home canning or preserving purposes.

(c) Sugar allowed pursuant to this section shall be used only in the quantities, during the period and for the purposes for which it was allowed.

(d) If any sugar allowed pursuant hereto is not used during the period for which it was allowed the individual making the application therefor shall within 30 days after the expiration of such period notify the Board to that effect; in the case of a family unit such notification may be made by any person who could make an application pursuant to this section on behalf of such family unit. If a certificate for such sugar was issued but not used it shall be returned to the Board for cancellation. If a certificate for such sugar was issued and used the War Ration Book or Books of the individual or of the members of the family unit shall be returned to the Board by the person who made the application for such sugar and the Board shall detach therefrom stamps having a weight value (as the weight value may be then fixed in Rationing Order No. 3) equal to the amount of such sugar; but

if the amount of such sugar exceeds the weight value of the stamps to which a weight value has been given, the Book or Books shall be retained by the Board until stamps having a weight value equal to the amount of such sugar shall have become valid. To the extent that the allowance for such sugar was made by reducing the excess sugar supply such sugar supply shall be increased by the amount of such sugar, or if an application for additional sugar pursuant to this section is then being considered and is granted an appropriate adjustment shall be made. The Board may use any combination of the above methods of adjustment which shall be appropriate under the circumstances.

[§ 1407.71 as amended by Amendment 1, 7 F.R. 3783, effective 5-20-42]

(e) The term fruit as used in this section shall include fruit juices.

[Paragraph (e) added by Amendment 7, 7 F.R. 6084, effective 8-8-42]

§ 1407.72 *Consumer born after registration.* A consumer born after the period provided for consumer registration may be registered by his parent or other person having custody of him, with the Board with which such parent or other person is registered. The Board shall issue a War Ration Book to such consumer after first removing therefrom the stamps applicable to all expired ration periods.

§ 1407.73 *Consumer handicapped by transportation difficulties.* (a) A registered consumer to whom a War Ration Book has been issued who, because of transportation difficulties, finds it a hardship to take delivery of sugar at the times and in the amounts specified in § 1407.243, may apply for a certificate authorizing him to take delivery of a quantity of sugar not in excess of twelve (12) pounds. The application therefor shall be made to the Board on OPA Form No. R-315 by the consumer personally, by an adult member of his family unit, by an authorized agent, or by any other person authorized to register for him. The Board, in its discretion, may grant the application: *Provided,* That the amount allowed such consumer shall not exceed twelve (12) pounds of sugar. Before issuing a certificate in such case, the Board shall detach from the War Ration Book of the consumer stamps having a weight value equal to the amount for which the certificate is issued; if the amount so allowed is greater than the weight value of the unexpired stamps in his War Ration Book to which a weight value has been assigned in § 1407.243 the War Ration Book shall be surrendered to the Board and held until stamps may be detached having a weight value equal to such amount.

[§ 1407.73 as amended by Amendment 5, 7 F.R. 5361, effective 7-11-42]

§ 1407.74 *Growers of sugarcane and sugar beets.* A consumer who has delivered sugarcane or sugar beets produced by him to a primary distributor for processing into sugar may apply for a cer-

tificate authorizing him to take delivery from that primary distributor of a quantity of sugar not in excess of 25 pounds for himself and 25 pounds for each member of his family unit. The application therefor shall be made to the Board upon OPA Form No. R-315 by the consumer personally or by an adult member of his family unit or by an authorized agent. The Board, in a proper case, shall grant the application: *Provided*, That such consumer shall surrender to the Board his War Ration Book and the War Ration Books of the members of his family unit for whom such application is made.

§ 1407.75 *Illness of consumer.* Any person who, by reason of his illness, requires amounts of sugar in addition to that otherwise allowed him may apply for a certificate authorizing him to take delivery of such additional amounts. The application therefor shall be made to the Board upon OPA Form No. R-315 by the consumer personally or by an adult member of his family unit, or by an authorized agent, and shall be accompanied by a doctor's certificate explaining why additional sugar is needed and stating the amount required. The Board in a proper case shall grant the application.

§ 1407.76 [Revoked by Amendment 44, 8 F.R. 2675, effective 3-1-43]

Institutional and Industrial Users

§ 1407.81 *Registering unit.* As used in §§ 1407.81 to 1407.94, the term "registering unit" refers only to the industrial users which are included within such registering unit.

[§ 1407.81 as amended by Amendment 44, 8 F.R. 2675, effective 3-1-43]

§ 1407.82 *Prohibited deliveries.* (a) On and after April 23, 1942, notwithstanding the terms of any contract, agreement, or commitment, regardless of when made, no person shall make delivery of sugar to any registering unit or any institutional user and no registering unit or institutional user shall accept delivery of sugar from any person except upon the surrender to such person by the registering unit or institutional user pursuant to this order of a certificate having a total weight value equal to the quantity of sugar so delivered; except that any sugar which at the time of registration of the registering unit has been included in its present inventory pursuant to § 1407.84 or any sugar which has been included, or was required to be included, in the opening inventory of an institutional user establishment pursuant to General Ration Order 5, may be received without the surrender of certificates.

(b) Deliveries of sugar from one institutional user establishment to another institutional user establishment of the same owner are governed by General Ration Order 5.

[§ 1407.82 as amended by Amendment 44, 8 F.R. 2675, effective 3-1-43]

§ 1407.83 *Registration.* (a) Except as the Office of Price Administration may

otherwise authorize, registration shall be made on April 28 or 29, 1942, for each registering unit on OPA Form R-310 (Registration of Industrial and Institutional Users) at a registration site designated for the area in which the principal business office of the owner is located.

[Paragraph (a) as amended by Amendment 7, 7 F.R. 6024, effective 8-8-42]

(b) The Form shall be presented for filing, and signed in the presence of a Registrar, by the owner, a partner (if the owner is a partnership), an officer (if the owner is a corporation, association, or similar organization), or manager of the owner. The Registrar in whose presence the Form is signed shall witness the signature and certify to the execution thereof.

(c) If the registering unit is composed of more than one establishment there shall be attached to the Registration Form a list of the establishments included, with the address of each: *Provided, however*, That a registering unit composed of establishments located on mobile conveyances, including vessels and airplanes, need not list such mobile conveyances.

(d) The Registrar shall also insert on the Form the designation of the Local Rationing Board having jurisdiction over the registration site and at the close of the registration period the completed Form shall be filed with such Board.

(e) The registration on OPA Form No. R-310 of any establishment whose sugar base has been established solely on an institutional use of sugar by the registering unit or its owner and that part of a sugar base which has been established on an institutional use of sugar by the registering unit or its owner shall be deemed cancelled as of March 1, 1943. A registering unit whose sugar base has been established in part on an institutional use of sugar by the registering unit or its owner shall before making application for an allotment, amend its registration by filing a new OPA Form R-310, excluding from its sugar base all sugar so used.

[Paragraph (e) added by Amendment 44, 8 F.R. 2675, effective 3-1-43]

§ 1407.84 *Present inventory.* (a) The present inventory of a registering unit is the aggregate of all sugar in the possession of, or intended to be used by, the registering unit, to which, at the time of registration, the owner of the registering unit has title or holds documents of title, or which was in transit or stored for delivery to the registering unit and out of the possession of the vendor, prior to April 28, 1942. The owner shall be deemed to have title to sugar regardless of the fact that it may have been mortgaged, pledged, or otherwise used as security in a credit transaction, or that its use may have been prohibited by any order of the War Production Board. Every person who owns one or more registering units must include all sugar to which he has title (except sugar held for

personal use and sugar in the possession of his vendor) in the present inventories of such registering units, allocating such sugar among those of his registering units as he selects.

(b) The present inventory, as adjusted, of a registering unit shall be reduced by the amount of sugar declared or required to be declared by the owner as a part of the opening inventory of an institutional user establishment pursuant to General Ration Order 5.

[Paragraph (b) added by Amendment 44, 8 F.R. 2675, effective 3-1-43]

§ 1407.85 *Sugar base.* (a) The sugar base for a registering unit proposing to use sugar for any product or purpose other than the products or purposes set forth in § 1407.241, Schedule A of Rationing Order No. 3, is, for any month, the amount of sugar used by the registering unit for such product or purpose during the corresponding month of 1941.

(b) If a registering unit proposes to use sugar for any product or purpose other than those listed in § 1407.241, Schedule A of Rationing Order No. 3, but did not use sugar for such product or purpose in each month of 1941, its sugar base for such product or purpose for each month may be, at the option of the registering unit, the amount arrived at by dividing the total quantity of sugar used for such purpose during the period from January 1, 1941, to April 28, 1942, by the number of months the registering unit was in business during that period. In making this computation any period in excess of 15 days shall be deemed a month.

(c) There shall not be included in the computation of the sugar base any sugar used in products which were delivered to the Army or Navy or to any of the persons or agencies enumerated on April 21, 1942, in paragraph (b) of § 1407.183.

[Paragraph (c) as amended by Amendment 45, 8 F.R. 2753, effective 3-2-43. Former (c) revoked, and (d), (e), and (f) redesignated (c), (d), and (e), respectively, by Amendment 44, 8 F.R. 2675, effective 3-1-43]

(d) The information necessary to compute the sugar base of the registering unit in accordance with the provisions of this section shall be entered on Schedule I of OPA Form No. R-310 (Registration of Institutional and Industrial Users).

(e) For each period commencing on or after November 1, 1942, there shall not be included in the sugar base of a registering unit, any sugar used in the manufacture of condensed milk packaged in containers holding more than one gallon.

[Paragraph (e) added by Amendment 14, 7 F.R. 7510, effective 11-1-42]

(f) For each period commencing on or after March 1, 1943, there shall not be included in the sugar base of a registering unit any sugar of which the registering unit or its owner made an institutional use.

[Paragraph (f) added by Amendment 44]

§ 1407.86 *Allotment.* (a) A registering unit which uses sugar for any purpose or product not enumerated in § 1407.241, Schedule A, and which has established a sugar base by registration on OPA Form R-310, is eligible for an amount of sugar for each of such products or purposes which is known as an allotment. The amount of an allotment for each period for which application is made shall be the applicable percentage specified in § 1407.242, Schedule B, of the sugar base.

(b) Application for an allotment made during the registration period shall be for the period from the date of registration to June 30, 1942. All subsequent applications shall be for consecutive two month periods, the first of which shall commence on July 1, 1942. Applications shall be made not later than the 5th day of the first month of the period for which the application is being made and not earlier than the 15th day of the month preceding the period. The board, however, to prevent loss of fresh fruits, vegetables, eggs, or dairy products, or for other purposes authorized by the Office of Price Administration, may permit the application to be made at any time during the month preceding such period and in such cases may permit the application to be made for a period not to exceed one additional month. The board, in its discretion, may permit an application to be made at any time after the time specified herein, but in such case the board shall reduce the allotment by the amount allocable to the expired portion of the period, in the proportion which the number of days which have elapsed bears to the total number of days in the period: *Provided, however,* That the board shall not reduce the March-April, 1943, allotment of a registering unit which is required under the provisions of paragraph (e) of § 1407.83, to amend its registration if the application for such allotment is made not later than the 20th day of March, 1943.

[Paragraphs (a) and (b) as amended by Amendment 44, 8 F.R. 2175, effective 3-1-43]

(c) A registering unit shall be entitled to the following additional allotments, but only for the two month periods commencing July 1, 1942 and September 1, 1942: twenty-five per cent of each sugar base of its institutional users and ten per cent of each sugar base of its industrial users. The Board shall grant these allotments to the registering unit without further application therefor at the same time that such registering unit applies for its allotment for the period which commences on September 1, 1942.

[Paragraph (c) added by Amendment 6, 7 F.R. 6057, effective 8-7-42]

(d) A registering unit may apply in any month for an allotment for the manufacture during the following month of condensed milk to be packaged in containers holding more than one gallon. Application shall be made on OPA Form No. R-315 (Special Purpose Application).

The registering unit shall send the original of the application to the Office of Price Administration in Washington and shall file a duplicate with the Board. The application shall set forth the amount of milk the registering unit will receive during the month for which the allotment is requested, its plant capacity, the amount of such milk which cannot be processed into non-sugar-containing products other than evaporated milk, or into condensed milk to be packaged by it in containers holding one gallon or less and such other information as the Office of Price Administration may require. The Office of Price Administration may grant such allotment for each month commencing with November 1942 in an amount which it considers necessary to prevent the spoilage of such milk. Each registering unit receiving an allotment pursuant to this paragraph shall file with the Office of Price Administration such reports of the amount of milk received by it and its disposition of such milk and of the sugar allotted as the Office of Price Administration may require.

[Paragraph (d) added by Amendment 14, 7 F.R. 7510, effective 11-1-42]

(e) A registering unit may, but shall not be required to, make on OPA Form No. R-314, the application for an allotment specified in § 1407.88 of Rationing Order No. 3. A registering unit not making such application for any period commencing on or after April 28, 1942, shall be deemed to have been granted for that period the full allotment to which it would have been entitled if it had made such application within the time specified in paragraph (b) of this section. A registering unit which made such application for any period expiring on or before December 31, 1942, after the time specified therefor in paragraph (b), shall be deemed to have been granted an increase in its allotment for that period equal to the amount of the reduction made pursuant to paragraph (b). No certificate shall be issued for any allotment or increase in allotment granted pursuant to this paragraph (e).

[Paragraph (e) added by Amendment 24, 7 F.R. 9396, effective 11-19-42]

(f) Notwithstanding the provisions of paragraph (b), no registering unit may apply for an allotment for the period beginning March 1, 1943, to be used by the registering unit in the preparation or service of food or beverages which the registering unit or the owner of the registering unit will serve to consumers or for an allotment on that part of a base which was established on the basis of such a use: *Provided, however,* That a registering unit that applies on or before February 27, 1943, may obtain an allotment not in excess of one-fourth of the amount which it obtained on the basis of such use pursuant to this section for the January-February period. Any allotment granted pursuant to this paragraph shall be deducted from future

allotments for such use (institutional user allotments).

[Paragraph (f) added by Amendment 39, 8 F.R. 2026, effective 2-12-43]

§ 1407.86a *Increases in allotments based on increases in population.* (a) A registering unit which in 1941 delivered, to a county designated in § 1407.244, Schedule D, of Rationing Order No. 3, products with respect to which it has a sugar base for industrial use, shall be entitled to have the allotment on that sugar base increased by the percentage shown for such county in Schedule D, multiplied by the percentage which the amount of sugar it used in such products, delivered in 1941 to such county, represents of the total amount of sugar it used in such products delivered in 1941. Deliveries, as used in this section, refer to final deliveries, directly or by independent carrier, but do not include deliveries to the Army or Navy of the United States or to persons specified in § 1407.183 (b). The registering unit shall include as its 1941 deliveries to a designated county: (1) deliveries of such products in 1941 by the registering unit to all places in such county not listed in paragraph (b), and (2) deliveries of such products in 1941, with or without further processing, by persons referred to in paragraph (b) from places listed in paragraph (b), wherever located, to all places in such county not so listed.

(b) The places referred to in paragraph (a) are as follows:

(1) An industrial user establishment or warehouse included within the registering unit, or

(2) A plant or warehouse of the owner of the registering unit, or

(3) A plant or warehouse of a person having an exclusive contract to process and distribute, or distribute without processing, in more than one county, products of the registering unit, or

(4) A plant or warehouse of a person owning more than 50 per cent of the stock of the owner of the registering unit, or a plant or warehouse of a corporation or other organization more than 50 per cent of the stock of which is owned by such person or by the owner of the registering unit.

(c) The allotments to be increased by this section shall be the allotments for industrial use provided by § 1407.86 (a) and (c) of Rationing Order No. 3. A registering unit shall be entitled to such increase for each period commencing on or after September 1, 1942.

(d) Application for the increase in allotment provided by this section shall be made for each period at the times and under the conditions specified in § 1407.86 (b) of Rationing Order No. 3, except that application for the full increase in allotment for the period commencing September 1, 1942 may be made at any time before November 6, 1942. The first application for such increase in allotment shall be made on OPA Form No. R-315 (Special Purpose Application). It shall state facts showing that the

registering unit is entitled to the increase applied for and shall include such other information as the Office of Price Administration may require. Subsequent applications for such increase shall be made in the manner specified for applications for the allotment provided by § 1407.86 (a) of Rationing Order No. 3. A registering unit which applies for the increase in allotment provided by this section shall preserve for not less than two years the journals, ledgers, and other records and reports which it used in determining such increase. They shall be kept in the office of the registering unit and shall be made available for inspection by the Office of Price Administration and the Board.

(e) If an amendment of Rationing Order No. 3 changes the increase in allotment to which a registering unit is otherwise entitled pursuant to this section, the registering unit shall apply on OPA Form No. R-315 for the increase in allotment as so changed, for the first period to which such amendment applies. It shall state facts showing that the registering unit is entitled to the increase in allotment as so changed, and shall include such other information as the Office of Price Administration may require.

[§ 1407.86a added by Amendment 10, 7 F.R. 6937, effective 9-5-42. Paragraph (e) added by Amendment 31, 7 F.R. 10345, effective 12-15-42]

§ 1407.86b *Temporary increases in allotments due to military maneuvers.* Whenever the Director of the Food Rationing Division of the Office of Price Administration finds that military maneuvers of the armed forces of the United States will cause temporary abnormal demands for sugar-containing products in the area in which such maneuvers are to be held, he may, upon defining such area, authorize such temporary increases in the allotments of registering units delivering such products within the affected area as he shall deem necessary.

[§ 1407.85b added by Amendment 53, 8 F.R. 4930, effective 4-15-43]

§ 1407.87 *Provisional allowance.* (a) A registering unit proposing to use sugar for the production of any of the products listed in § 1407.241, Schedule A of Rationing Order No. 3, is eligible for an amount of sugar which is determined by multiplying the number of units of such product which the owner estimates will be produced by the registering unit during the period for which the application is being made, by the quantity of sugar which is permitted in § 1407.241, Schedule A, as the maximum amount per unit of the product. The amount of sugar thus allowed is known as a provisional allowance.

(b) A registered unit proposing to use sugar for the feeding of bees is entitled to a provisional allowance for such purpose. The amount of such provisional allowance is to be determined pursuant to Table VI of Schedule A, § 1407.241.

(c) Application for a provisional allowance made during the registration

period shall be for the period from the date of registration to June 30, 1942; application made subsequently shall be for the period from the first day of the month in which the application is filed to the last day of the succeeding month.

(d) Notwithstanding the terms of paragraph (c) of this section, a registering unit entitled to a provisional allowance for a calendar year for feeding bees may, at any time during such calendar year, make application for such provisional allowance or any part thereof.

(e) A registering unit may, during the year 1942, obtain an advance on future provisional allowances for feeding bees if: (1) it has obtained its full 1942 provisional allowance for such purpose; and (2) the unused part of such provisional allowance, in addition to the honey in each colony, will be insufficient to feed the bees in that colony until they begin to produce honey in 1943. The total amount of the advances which may be obtained by a registering unit pursuant to this paragraph shall not exceed 15 pounds for each colony. The amounts advanced shall be deducted from the registering unit's 1943 provisional allowance for feeding bees; provided, that if an amount in excess of 10 pounds per colony is advanced, such excess shall be deducted from the registering unit's 1944 provisional allowance for feeding bees. Application for an advance shall be made to the Board on OPA Form No. R-315. The application shall establish compliance with the requirements of this paragraph, state that if the application is granted with respect to any colony, the registering unit will not remove honey from that colony until the bees in that colony begin to produce honey in 1943, and include such other information as the Board may require.

[Paragraphs (d) and (e) added by Amendment 26, 7 F.R. 9839, effective 12-2-42]

§ 1407.88 *Application for certificate.* Registering units which have properly registered on OPA Form No. R-310 (Registration of Institutional and Industrial Users) may apply for a provisional allowance or allotment on OPA Form No. R-314 (Application for Sugar Purchase Certificates by Institutional and Industrial Users). The application shall be signed by one of the persons authorized to file and sign OPA Form No. R-310 or by an agent designated by the owner by a written authorization filed with the Board. The application shall be presented at or mailed to the office of the Board having jurisdiction over the registering unit.

§ 1407.89 *Use of provisional allowance.* (a) No registering unit may use more sugar in any packing season for packing or processing any product listed in Table I or Table II of Schedule A, § 1407.241, than the amount determined by multiplying the number of units of such product actually packed in such season by the allowance per unit of such product specified in Schedule A.

(b) No registering unit may use more sugar for packing or otherwise processing any unit of any product listed in Table IV or Table V of Schedule A than the amount specified therein as the allowance per unit of such product.

(c) In determining the quantity of sugar used for the packing or processing of any product listed in § 1407.241, Schedule A there shall be included all dextrose and corn syrup used for such product on the basis of 1.2 pounds of dextrose or 1.4 pounds of corn syrup as the equivalent of 1 pound of sugar.

§ 1407.90 *Amount for which certificate is to be issued.* A certificate shall be issued to the registering unit, after proper application, for the total of the provisional allowance and the allotment or allotments applied for, less any adjustments required to be made by Rationing Order No. 3 and less any part of the provisional allowance for the preceding period which was not used for the purposes for which the provisional allowance was made.

§ 1407.91 *Adjustments.* (a) In the first application for a certificate the adjustment shall be the deduction of the amount of the present inventory, as defined in § 1407.84; in all subsequent applications the adjustments shall take into account any excess of such present inventory over the total of all prior allotments and provisional allowances, and corrections for any errors, omissions, or mistakes on prior applications, or for changes required by actions taken pursuant to Rationing Order No. 3.

[Paragraph (a) as amended by Amendment 5, 7 F.R. 5331, effective 7-11-42]

(b) Any registering unit which uses sugar obtained by it without the surrender of certificates shall include the amount of such sugar as an adjustment to be deducted from the amount for which a certificate may be issued upon the next application for the registering unit.

§ 1407.92 *Use of allotment.* (a) Except as may be authorized by the Office of Price Administration, a registering unit which obtains an allotment pursuant to § 1407.86 may use sugar allotted on a sugar base only for the purpose or for the production of the product upon the basis of which such sugar base has been established or for a purpose or for the production of a product included within the same class according to the classes hereinafter set forth, to-wit:

§ 1407.93a *Ration banking by industrial users.* (a) The owner of a registering unit may open an account for that registering unit. If such registering unit is composed of more than one establishment, the owner may, at his option, open a separate account for each establishment, or for any group of establishments, in such registering unit. (c) A registering unit using sugar during any month for packing or processing any of the products listed in § 1407.241, Schedule A, or for feeding bees, shall, on or before the 15th day of the following month, file with the Board a written report of the use of sugar for each of such products during the past month, except that the report made during June 1942 shall be for the period from the time of registration to May 31, 1942. The report shall set forth the number of units by sizes of each product packed or processed (and the number of bee colonies fed by weeks), and the quantity of sugar used in connection therewith. In the case of the products listed in Tables I and II of Schedule A, § 1407.241, except fruit juices, there shall be included as a separate item the number of cases of each product packed or processed in terms of cases of 24/2's and 24/2½'s, respectively, on the basis of the conversion table set forth in Table III of Schedule A. In the case of fruit juices the quantity packed or processed shall be expressed in terms of gallons.

(d) Each registering unit shall preserve for a period of two years at its office records showing by months the amounts of sugar received by the registering unit and the person from whom received, the use made of such sugar for each product and purpose listed in § 1407.241, Schedule A, and § 1407.242, Schedule B, and the amount of each product processed.

§ 1407.102 *Prohibited deliveries.* On and after April 28, 1942, notwithstanding the terms of any contract, agreement, or commitment, regardless of when made, no person shall make delivery of sugar to any registering unit and no registering unit shall accept delivery of sugar from any person except upon the surrender to

⁵ "Retailer" means an establishment which makes over 50 percent of its sales of all merchandise to consumers.

⁶ "Wholesaler" means an establishment which makes over 50 percent of its sales of all merchandise to persons other than consumers, exclusive of sales made by a primary distributor. The term "wholesaler" does not include a primary distributor.

such person by the registering unit, pursuant to Rationing Order No. 3, of certificates or stamps having a total weight value equal to the quantity of sugar so delivered; except that any sugar which at the time of registration has been included in present inventory pursuant to § 1407.104, may be received without the surrender of certificates or stamps.

[§ 1407.102 as amended by Amendment 2, 7 F.R. 4545, effective 6-10-42]

§ 1407.103 *Registration and application: Eligibility.* (a) Registration and application for certificates shall be made on April 28 or 29, 1942, for each registering unit upon OPA Form No. R-305 (Registration of Retailers and Wholesalers), at a registration site designated for the area in which the principal business office of the owner is located: *Provided*, That in order to be eligible for registration all of the component establishments selling at retail must have made deliveries of sugar at any time during the period from January 1, 1941, to April 20, 1942, or have commenced operations subsequent to April 20, 1942, and that component establishments selling at wholesale must have handled sugar at any time during the period from January 1, 1941, to December 1, 1941. Retail establishments which did not handle sugar during the period from January 1, 1941, to April 20, 1942, or which commenced operations subsequent to April 28, 1942, and wholesale establishments which did not make deliveries of sugar during the period from January 1, 1941, to December 1, 1941, may petition for registration pursuant to the provisions of § 1407.163 of Rationing Order No. 3.

(b) The Form shall be presented for filing, and signed in the presence of a Registrar, by the owner, a partner (if the owner is a partnership), an officer (if the owner is a corporation, association, or similar organization), or manager of the owner. The Registrar in whose presence the Form is signed shall witness the signature and certify to the execution thereof.

(c) If the registering unit is composed of more than one establishment there shall be attached to the Registration Form a list of the establishments included, with the address of each: *Provided, however*, That a registering unit composed of establishments located on mobile conveyances, including vessels, need not list such mobile conveyances.

(d) The Registrar shall also insert on the Form the designation of the Local Rationing Board having jurisdiction over the registration site and at the close of the registration period the completed Form shall be filed with such Board.

§ 1407.104 *Present inventory.* The present inventory of a registering unit is the aggregate of all sugar in the possession of, or intended to be used by, the registering unit, to which, at the time of registration, the owner of the registering unit has title or holds documents of title, or which was in transit or stored for delivery to the registering unit and out of

the possession of the vendor of the registering unit prior to April 28, 1942. The owner shall be deemed to have title to sugar regardless of the fact that it may have been mortgaged, pledged, or otherwise used as security in a credit transaction, or that its use may have been prohibited by any order of the War Production Board. Every person who owns one or more registering units must include all sugar to which he has title (except sugar held for personal use and sugar in the possession of his vendor) in the present inventories of such registering units, allocating such sugar among those of his registering units as he selects.

§ 1407.105 Allowable inventory. (a) A registering unit is permitted to obtain a working inventory of sugar which shall be known as the allowable inventory.

(b) The amount of the allowable inventory for a registering unit registering as a retailer is the quantity equal to one pound for each dollar of gross sales of all meats, groceries, fruits, vegetables, and similar products made during the week ending April 25, 1942 (or, if the component establishment began operations after April 20, 1942, the estimated sales for the first complete calendar week of operations), or one-quarter of the sugar delivered to and accepted by the registering unit during the month of November 1941, whichever is smaller: *Provided*, That if the component establishment was not in operation during the full month of November 1941, or if the information concerning the quantity delivered to and accepted by the registering unit during November 1941 cannot be ascertained, the allowable inventory shall be computed solely on the basis of the aforementioned gross sales.

(c) The allowable inventory of a registering unit registered as a wholesaler is the quantity of sugar equal to the total obtained by taking the quotient arrived at by dividing the amount of sugar delivered to the registering unit in 1941 by twice the number of months it made deliveries of sugar during 1941, and adding thereto the quantity of sugar equal to the shipping unit by which the registering unit customarily took delivery of sugar on or about December 1, 1941.

(d) A registering unit may apply for a temporary increase in its allowable inventory in an amount not to exceed fifty percent of the allowable inventory permitted such registering unit pursuant to paragraph (b) or (c). If it is registered as retailer, it may also apply for a temporary increase not to exceed fifty percent of any permanent increase in its allowable inventory authorized by the Office of Price Administration. Application for the increase shall be made by the registering unit to the Board on OPA Form No. R-315. The board shall issue a certificate to the registering unit in weight value equal to the increase applied for if it is not in excess of the amount permitted pursuant to this paragraph; *Provided, however*, That if the registering unit has not surrendered stamps or certificates to the board for cancellation

in weight value equal to its excess inventory, as described in § 1407.107, and in weight value equal to any temporary increase in its allowable inventory previously authorized by the Office of Price Administration, the board shall grant the application and reduce the excess inventory and any previously authorized temporary increase, and, if the increase granted pursuant to this paragraph exceeds the weight value of such stamps and certificates required to be surrendered a certificate shall be issued to the registering unit in weight value equal to the difference. Increases granted pursuant to this paragraph may be cancelled by the Office of Price Administration. If such increases are cancelled, registering units to which they have been granted shall, before accepting any deliveries of sugar, surrender to the board for cancellation stamps or certificates in weight value equal to such increases. Thirty days notice of any such cancellation will be given.

[Paragraph (d) added by Amendment 40, 8 F.R. 3176, effective 3-18-43]

§ 1407.106 Issuance of certificates at registration. If the present inventory of the registering unit is less than the allowable inventory, a certificate shall be issued by the Registrar to the registering unit in the amount applied for; in no event, however, shall the amount applied for be greater than the difference between the allowable inventory and the present inventory. If application is made for a certificate in weight value less than the maximum for which such application may be made, the allowable inventory shall be reduced by the amount by which the maximum weight value for which application could be made exceeded the weight value of the certificate applied for.

§ 1407.107 Excess inventory. The amount by which the present inventory exceeds the allowable inventory shall be known as the "excess inventory." The registration of a registering unit which has an excess inventory shall be completed, but such registering unit shall not be entitled to any certificates at the time of registration. Before it may accept any deliveries of sugar such registering unit must surrender to the Board for cancellation stamps or certificates in weight value equal to the amount of the excess inventory.

§ 1407.108 Deliveries to registering units after registration. After registration, the allowable inventory of a registering unit may be replenished upon the surrender, pursuant to Rationing Order No. 3, of stamps and certificates received by the registering unit from the persons to whom its component establishments delivered sugar.

§ 1407.109 Late registrations. A registering unit which was not registered on April 28 or 29, 1942, may be registered thereafter at the office of the Board. In applying for late registration, the present inventory and the allowable inventory shall be computed and declared as of April 28, 1942.

§ 1407.109a Ration banking by retailers and wholesalers. (a) Each owner of a registering unit which includes or is composed of one or more wholesale establishments, more than one retail establishment or a single retail establishment whose gross sales of all meats, groceries, fruits, vegetables and similar products during December 1942, or during any single calendar month since December 1942, were over \$2,500.00, shall open at least one account for all the component establishments of such registering unit.

[Paragraph (a) as amended by Amendment 55, 8 F.R., effective 4-27-43. Paragraph (b) revoked]

(c) The owner of a registering unit described in paragraph (a) of this section may, at his option, open a separate account for each establishment, or for any group of establishments, in such registering unit.

(d) Each account shall be opened in the name of the owner, who shall designate the establishment or establishments to be served. All accounts shall be opened in accordance with General Ration Order No. 3A.

(e) An owner of a registering unit may transfer ration credits from one account to another by the issuance of a check without the delivery of sugar, if these accounts are carried for establishments in the same registering unit.

(f) An account which serves a registering unit composed of a single retail establishment for which a ration bank account is not required by paragraph (a) of this section, shall be closed on or before July 3, 1943.

[§ 1407.109a added by Amendment 33, 8 F.R. 1283, effective 1-27-43. Paragraph (f) added by Amendment 65]

§ 1407.110 Records. Establishments selling at retail or at wholesale shall keep records of all sugar received by them. An establishment operating as a wholesaler shall also keep a record of the names and addresses of all persons to whom sugar was delivered at wholesale and the quantities and dates of such deliveries. These records shall be kept at the office of the registering unit of which the establishment is a part and shall be made available for inspection by the Office of Price Administration and the Board. Such records shall be retained for a period of not less than 2 years.

§ 1407.111 Replacement of sugar lost in repackaging. (a) A registering unit may obtain certificates in weight value equal to the amount of sugar lost by the retail and wholesale establishments included in the registering unit in packaging sugar: *Provided*, That the weight value of such certificates shall not exceed one per cent of the amount of sugar thus packaged.

(b) Application for such certificates shall be made by the registering unit for each six-month period ending October 31 or April 30. It shall be made to the Board on OPA Form No. R-315, in the month following the close of each such period, and shall establish compliance

with the requirements of paragraph (a) of this section and include such other information as the Board may require.

[§ 1407.111 added by Amendment 21, 7 F.R. 8830, effective 11-4-42]

§ 1407.112 *Surrender of certain expired stamps and certificates in exchange for certificates or reduction of excess inventory.* (a) A registered retailer or wholesaler may surrender to the board any stamps numbered 1 through 9 or any expired certificates in exchange for which he delivered before March 19, 1943, and within the periods specified in § 1407.141, the quantity of sugar authorized to be delivered by such stamps and certificates. If his excess inventory as adjusted pursuant to § 1407.107 is equal to or greater than the weight value of such surrendered stamps and certificates, the board shall reduce the excess inventory by the weight value of such stamps and certificates. However, if the weight value of such stamps and certificates is greater than his excess inventory as adjusted pursuant to § 1407.107, the board shall cancel the excess inventory and issue to him a certificate in weight value equal to the difference.

(b) Application for such reduction of excess inventory or a certificate shall be made on OPA Form No. R-315 on or before April 9, 1943. The application shall state facts establishing compliance with the requirements of paragraph (a) of this section and such other information as the board may require. The application shall be accompanied by the stamps and certificates to be surrendered and such stamps shall be pasted on cards as prescribed by § 1407.142.

[§ 1407.112 added by Amendment 48, 8 F.R. 3522, effective 3-25-43]

§ 1407.120 *Ration banking by primary distributors.* (a) On or before February 8, 1943, each primary distributor shall open at least one account for all his establishments, other than institutional or industrial user establishments. If the primary distributor has more than one establishment he may, at his option, open a separate account for each establishment or group of establishments. Each account shall be opened in the name of the owner, who shall designate the establishment or establishments to be served. All accounts shall be opened in accordance with General Ration Order No. 3A.⁷ The primary distributor shall notify the Washington Office of the Office of Price Administration of the opening of such account or accounts and the name and address of the establishment or establishments to be served by each such account. The term person includes: an individual, partnership, corporation, or any other organized group; their legal successors, assigns, or representatives; the United States, or any government or any of its political subdivisions; or any agency of the foregoing.

Sec. 3 Relation to other regulations.

(a) The provisions of this regulation supersede the provisions of the General Maximum Price Regulation¹ with respect to the sale and delivery of any article governed by this regulation after the effective date of this regulation.

(b) The maximum price for export sales of any article covered by this regulation is governed by the Revised Maximum Export Price Regulation.²

Sec. 5 *Maximum prices for the sale of used metal coil and flat bedsprings.* The maximum prices for the sale of used metal coil and flat bedsprings are set forth below. These prices include all services furnished by the sellers except those which specific provisions of this regulation permit to be added as separate charges. Any charge which is not quoted and billed separately shall for the purpose of this regulation be considered to be part of the selling price of the bedsprings.

(a) Maximum selling prices for the sale of used metal coil and flat bedsprings except at retail:

No charge may be made, however, for deliveries made within the limits of a city in which the seller does business. A "reconditioner" is a person making the first sale of a used bedspring which fulfills the requirements set forth in paragraph (e) of this section.

(b) The following are among but are not exclusively the practices prohibited:

This sales slip, receipt, invoice, or other written evidence of purchase shall be kept by the purchaser and a carbon copy of it kept by the seller for inspection by the Office of Price Administration.

(b) Any person selling a used metal or flat bedspring at retail who has customarily given a purchaser a sales slip, receipt or similar evidence of purchase shall continue to do so. In the judgment of the Regional Administrator of Region VIII, the maximum prices established by this regulation are generally fair and equitable and are necessary to check inflation and to effectuate the purposes of the Act.

So far as practicable, the Regional Administrator of Region VIII gave due consideration to prices prevailing between October 1 and 15, 1941, and consulted with the representatives of those affected by this regulation. A statement of the considerations involved in the issuance of this regulation is issued simultaneously herewith.

Therefore, in accordance with the direction of the President to take action which will stabilize prices affecting the cost of living, and under the authority therewith delegated by the President pursuant to the Act of Congress approved October 2, 1942 entitled "An act to aid in stabilizing the cost of living" (H. R. 7565), 77th Congress, 2d Session, and under the authority of Executive Order 9250, Executive Order 9328, and the Emergency Price Control Act of 1942, the Regional Administrator of Region VIII hereby issued this Restaurant Maximum Price Regulation No. 8-1 establishing as the maximum prices for food and drink sold for immediate consumption in California, Oregon and Washington the prices prevailing therefor during the seven-day period beginning April 4, 1943, and ending April 10, 1943.

§ 1448.701 *Maximum prices for food and drink sold for immediate consumption.* For the reasons set forth in the statement of considerations issued simultaneously herewith,* and under the authority vested in the Regional Administrator of Region VIII by the Emergency Price Control Act of 1942, as amended, Executive Order 9250, Executive Order 9328, and General Order No. 50, Restaurant Maximum Price Regulation No. 8-1 (Food and Drink Sold for Immediate Consumption in California, Oregon and Washington) which is annexed hereto and made a part hereof, is hereby issued.

*Copies may be obtained from the Office of Price Administration.

SECTION 1 *Sales at higher than ceiling prices prohibited.* If you own or operate a restaurant, hotel, cafe, dining car, delicatessen, soda fountain, boarding house, or any other eating or drinking place, you must not offer or sell any "food item" (including any beverage) or "meal" at a price higher than the highest price at which you offered the same food item or meal in the seven-day period beginning Sunday, April 4, 1943 and ending Saturday, April 10, 1943. You must not offer or sell any other food item or meal at a price higher than the ceiling price which you figure according to the directions in the next section (section 2). You may, of course, sell at lower than ceiling prices.

SEC. 2 *How you figure ceiling prices for food items and meals you did not sell in the seven-day period.* You must figure your ceiling price for a food item or meal which you did not offer in the seven-day period, as follows:

(a) Choose from the food items or meals for which a ceiling price has already been fixed, the food item or meal which is most similar to the food item or meal you are pricing; and

(b) Figure a price which is "in line" with the price of that most similar food item or meal. A price is "in line" if the customer receives as much value for his money from the one item or meal as from the other, even though the two prices may be different. In comparing values, quality, size of portions, and the margin over food cost are the things that count; or

(c) If you prefer, take as your ceiling price the last price at which you offered the same food item or meal for sale before the seven-day period.

(d) Once your ceiling price for a food item or meal has been fixed, it may not be changed.

SEC. 3 *Classes of food items and meals—(a) The classes of food items.*

BREAKFAST ITEMS

- (1) Fruits and fruit juices.
- (2) Cereals.
- (3) Egg and combination egg dishes served at breakfast.
- (4) Breads, rolls, toast, etc. served at breakfast.
- (5) All other breakfast dishes.

OTHER ITEMS

- (6) Appetizers and cocktails.
- (7) Soups.
- (8) Beef.
- (9) Pork.
- (10) Lamb, Mutton.
- (11) Veal.
- (12) Poultry.
- (13) Fish and shellfish.
- (14) Miscellaneous and variety meats including liver, kidneys, and made dishes such as stews, casseroles, etc.
- (15) Egg and cheese dishes which might be served as a main dish or entree in a meal.
- (16) All other dishes which might be served as a main dish or entree in a meal, such as spaghetti, vegetable plate, baked beans, chop suey, etc.
- (17) Potatoes.
- (18) All other vegetables.
- (19) Bread and butter.
- (20) Salads (except as served as main course in a meal).
- (21) Cakes, cookies, pies, pastries and other baked goods.

BEVERAGES

- (27) Non-alcoholic beverages.
- (28) Beer and other malt beverages.
- (29) Wines.
- (30) Other alcoholic beverages.

(b) *The classes of meals.* The classes of meals are (1) for week-days: breakfast, lunch, tea, dinner, supper; (2) for Sundays; breakfast, lunch, tea, dinner, supper.

SEC. 4 *No ceiling price to be higher than the highest price in the base period.* Under no circumstances are you permitted to charge a higher price for a food item or meal than the highest price at which you offered a food item or meal of the same class during the seven-day period.

Example 1. If you figured an "in line" price for a week-day at \$1.25, and your highest price in the week-day dinner class is \$1.00, your ceiling price for the new dinner is \$1.00.

Example 2. If during the seven-day period your highest price for soup was 15 cents, you may not offer any soup at a price higher than 15 cents.

SEC. 5 *Prohibition against discontinuing meals at certain prices.* You must not now discontinue offering meals at prices comparable to those charged by you in the seven-day period if by your doing so your customers would actually have to pay more than they did in the seven-day period. You will be in violation of this rule unless:

(a) You continue to offer meals at different prices representative of the range of prices at which you offered meals of the same class during the seven-day period, and unless

(b) You continue to offer at least as many different meals at or below the lowest price charged by you for meals of the same class on any day that you select in the seven-day period, as you did on that day.

Example. If you select Friday, April 9, 1943, to determine the lowest price and the number of week-day meals offered at that price, and if on that day you offered six week-day dinners, of which 2 were priced at 85¢, and one each at 90¢, \$1.00, \$1.10, \$1.15, you must continue to offer two week-day dinners at 85¢. Note that Sunday meals and week-day meals are meals of a different class.

SEC. 6 *Evasion.* You must not evade the provisions of this regulation by any scheme or device, including:

(a) Deteriorating quality or reducing quantity without making appropriate reductions in price;

(b) Withdrawing the offer, or increasing the price, of any meal ticket, weekly rate, or other arrangement by which customers may buy food items or meals at less than the prices they must pay when purchasing by item or meal;

(c) Increasing any cover, minimum, bread-and-butter, service, corkage, entertainment, check-room, parking or other special charges, or making such charges when they were not in effect in the seven-day period;

(d) Requiring as a condition of sale of an item or meal the purchase of other

items or meals, except that you may refuse to sell coffee unless a customer also purchases another food item;

(e) Refusing to sell combinations of food items as meals if such meals were offered in the seven-day period and the items making up the combination are being offered separately.

SEC. 7 Rules for new proprietors. (a) If you acquire another's business and continue the business in the same place, you are subject to the same ceiling prices and duties as the previous proprietor.

(b) If you open an eating or drinking place after the seven-day period, you must fix ceiling prices in line with the ceiling prices of the nearest eating or drinking place of the same type as yours. If the ceiling prices so fixed are too high and threaten to have an inflationary effect on the prices of food or drink, the Office of Price Administration may issue an order requiring you to reduce your ceiling prices. You are subject to the record requirements of section 8 and the posting requirements of section 9 immediately upon the opening of your place.

SEC. 8 Taxes. If in the seven-day period you stated and collected the amount of any tax separately from the price you charged, you may continue to do so. You may also separately state and collect the amount of any new tax or of any increase in the amount of a previous tax on the sale of food or drink or on the business of selling food or drink, if the tax is measured by the number or price of items or meals.

SEC. 9 Records—(a) Customary records. You must preserve all your existing records relating to your prices, costs and sales. You must also continue to maintain such records as you ordinarily kept. All such records shall be subject to examination by the Office of Price Administration.

(b) *Records of the seven-day period.* You must make available for examination by any person during ordinary business hours a copy of each menu used by you in the seven-day period. If you did not use menus, you must prepare in duplicate and make available for such examination a list of the highest prices you charged in the seven-day period.

(c) *Future records.* Beginning with the effective date of this regulation, you must keep, for examination by the Office of Price Administration, two each of the menus used by you each day. If you did not use menus you must prepare in duplicate, and preserve for such examination, a record of the prices charged by you each day, except that you need not record prices which are the same as, or less than, prices you previously recorded for the same items or meals.

SEC. 10 Posting. (a) Beginning May 15, 1943, each menu must have clearly and plainly written on or attached to it the following statement:

All prices listed are our ceiling prices unless otherwise indicated, in which case they are below ceiling prices. By OPA regulation, our ceilings are our highest prices from April 4, 1943 to April 10, 1943. Records of these prices are available for your inspection.

If you do not use menus, you must post the statement by a sign which can be easily read by your customers and which

must be located near the cashier's desk, if any, or the principal entrance.

(b) Whenever an item or meal appears on a menu or price list at a price below the ceiling price, the ceiling price must be shown as well as the offering price.

(c) If you made menus available to customers in the seven-day period, you shall continue to make them available.

SEC. 11 Operation of several places. If you own or operate more than one eating or drinking place, you must do everything required by this regulation for each place separately.

SEC. 12 Relation to other maximum price regulations. The provisions of this regulation shall not apply to any sale for which a maximum price is established by any other regulation, including the General Maximum Price Regulation, now or hereafter issued by the Office of Price Administration.

SEC. 13 Geographical application. This regulation applies in the States of California, Oregon, and Washington.

SEC. 14 Enforcement. Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 15 Definitions and explanations.

(b) "Meal" means a combination of food items sold at a single price. Examples of meals are a five-course dinner, a club breakfast, and a blue-plate special. Two or more kinds of food which are prepared or served to be eaten together as one dish are not a "meal". Examples of such dishes are: ham and eggs, bread and butter, apple pie and cheese.

(c) "Offered" means offered for sale and includes the listing or posting of prices for items and meals even though the items and meals so offered were not actually on hand to be sold.

C. A. Communications, Inc. for telegraph messages from Ecuador to the United States become effective; and it being the opinion of the Commission that the effective date of said tariff schedules, insofar as they relate to charges for

telegraph messages from Ecuador to the United States, should be postponed pending hearing and decision on the lawfulness of such charges;

It is further ordered, That the operation of the above-cited tariff schedules, insofar as they provide for charges for and in connection with telegraph messages from Ecuador to the United States, be suspended; that the use of the charges therein stated as applicable to such communications be deferred until August 1, 1943, unless otherwise ordered by the Commission; and that during said period of suspension no changes shall be made in such charges or in the charges sought to be altered, unless authorized by special permission of the Commission;

It is further ordered, That in the event a decision as to the lawfulness of the charges herein suspended has not been made during the suspension period, and said charges shall go into effect, R. C. A. Communications, Inc., and all other carriers subject to the Commission's jurisdiction participating in the service provided under the tariff provisions herein suspended, shall, until further order of the Commission, each keep accurate account of all amounts charged, collected, or received by reason of any increase in charges effected thereby; that each such carrier shall specify in such accounts by whom and in whose behalf such amounts are paid; and R. C. A. Communications, Inc., and each such participating carrier shall file with this Commission a report, under oath, on or before the 10th day of each calendar month, commencing September 10, 1943, showing the amounts accounted for as aforesaid during the previous calendar month;

It is further ordered, That a copy of this order be filed in the office of the Federal Communications Commission with said tariff schedules herein suspended; that R. C. A. Communications, Inc., and the said carrier parties to such tariff schedules be, and they are hereby, each made a party respondent to this proceeding;

It is further ordered, That this proceeding be, and the same is hereby, assigned for hearing on the 26th day of May, 1943, at the offices of the Federal Communications Commission, in Washington, D. C., beginning at 10:00 a. m.

[Rev. Order 106 Under MPR 188]

ARMSTRONG CORK CO.

ORDER REQUIRING DATA FOR SETTING MAXIMUM PRICES

Revised Order No. 106 Under § 1499.158
of Maximum Price Regulation No. 188—
Manufacturers' Maximum Prices for
Specified Building Materials and Con-
sumers' Goods Other Than Apparel.

Order No. 106 is revised and amended
to read as follows:

For the reasons set forth in an opin-
ion issued simultaneously herewith and
pursuant to § 1499.158 of Maximum
Price Regulation No. 188, *It is hereby
ordered:*

(a) The maximum prices which may
be charged by the Armstrong Cork Com-
pany of Lancaster, Pennsylvania for new
products, as defined in paragraph (c)
below, shall be determined in accord-
ance with the provisions of this order.
The Armstrong Cork Company shall
submit detailed standard manufacturing
cost data both for any new glass con-
tainer being priced, and for a glass con-
tainer comparable to it (on the basis of
capacity, glass weight, finish, size, maxi-
mum height, color and shipping weight)
which already is being or has been man-
ufactured by the company, in accord-
ance with the company's regular ac-
counting practice. These data will not
include any of the following: General
and administrative and selling expenses,
packaging cost, freight expense and cost
of fittings.

The company shall then determine
both the average percentage and the

average dollar difference between the manufacturing cost as so computed and the selling price in any carton for which a maximum price has been established, for the container which has been selected as comparable. It shall then apply to the manufacturing cost of the new container, as computed under this order, either the average percentage or average dollar difference computed for the comparable container, whichever will yield the lower price. The resulting price shall be the maximum price for the new glass container in the same base carton as was used in the computation for the comparable container.

Fifteen days after the submission of this report, unless the company is notified to the contrary by the Office of Price Administration, it may be assumed that approval of the price applied for has been granted and the company may proceed to sell or offer for sale the container in question.

(b) The maximum prices which may be charged by the Armstrong Cork Company for special cartons, as defined in paragraph (c) below, shall be determined by adding to the established price for the glass container in a carton the maximum price of which is already established, an amount no greater than the differential between the cost of that latter carton and the cost of the special carton being priced, both costs being taken as of the same date, which date must be within sixty days of the date of the computation. When the carton is manufactured by the Armstrong Cork Company, the "cost" of that carton for the purposes of this order may be taken as the selling price for such carton determined under applicable regulations of the Office of Price Administration.

(c) When used in this revised order, the term:

(1) "New product" means any glass container manufactured by the Armstrong Cork Company which is subject to Maximum Price Regulation No. 188 and which meets all of the following conditions:

(i) Which was not delivered or offered for delivery during March 1942 by the Armstrong Cork Company;

(ii) The price of which cannot be determined upon the basis of prices which the Armstrong Cork Company had in effect for glass containers during March 1942;

(iii) Which may not be priced under § 1499.155 of Maximum Price Regulation No. 188.

(2) "Special carton" means any carton for which no maximum price has already been established by inclusion in the price lists of the Armstrong Cork Company or by some provision in a Regulation or Order of the Office of Price Administration. The term "special carton" under this revised order shall include any special packaging, including wooden boxes as well as any other types of shipping cases or packages for glass containers.

(d) Any selling price determined under this order shall be subject to adjustment at any time by the Office of Price Administration.

(e) This Revised Order No. 108 may be revoked or amended by the Office of Price Administration at any time.

This order shall become effective May 7, 1943.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

[Order 338 Under MPR 188]

OWENS-ILLINOIS PACIFIC COAST COMPANY

APPROVAL OF MAXIMUM PRICES

Order No. 338 under § 1499.153 of Maximum Price Regulation 188—Manufacturers' Maximum Prices for Specified Building Materials and Consumers' Goods Other Than Apparel.

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to § 1499.158 of Maximum Price Regulation No. 188: *It is hereby ordered:*

(a) The maximum prices which may be charged by the Owens-Illinois Pacific Coast Company of 135 Stockton Street, San Francisco, California for new products, as defined in paragraph (c) below, shall be determined in accordance with the provisions of this order. The Owens-Illinois Pacific Coast Company shall submit detailed standard manufacturing cost data both for any new glass container being priced, and for a glass container comparable to it (on the basis of capacity, glass weight, finish, size, maximum height, color and shipping weight) which already is being or has been manufactured by the company, in accordance with the company's regular accounting practices as filed with the Office of Price Administration by the Owens-Illinois Glass Company. These data will not include any of the following: General and administrative and selling expenses, packaging cost, freight expense and cost of fittings.

The company shall then determine both the average percentage and the average dollar difference between the manufacturing cost as so computed and the selling price in any carton for which a maximum price has been established, for the container which has been selected as comparable. It shall then apply to the manufacturing cost of the new container, as computed under this order, either the average percentage or average dollar difference computed for the comparable container, whichever will yield the lower price. The resulting price

shall be the maximum price for the new glass container in the same base carton as was used in the computation for the comparable container.

Fifteen days after the submission of this report, unless the company is notified to the contrary by the Office of Price Administration, it may be assumed that approval of the price applied for has been granted and the company may proceed to sell or offer for sale the container in question.

(b) The maximum prices which may be charged by the Owens-Illinois Pacific Coast Company for special cartons, as defined in paragraph (c) below, shall be determined by adding to the established price for the glass container in a carton the maximum price of which is already established, an amount no greater than the differential between the cost of that latter carton and the cost of the special carton being priced, both costs being taken as of the same date, which date must be within sixty days of the date of the computation. When the carton is manufactured by the Owens-Illinois Pacific Coast Company, the "cost" of that carton for the purposes of this Order may be taken as the selling price for such carton determined under applicable regulations of the Office of Price Administration.

(c) When used in this order, the term:

(1) "New product" means any glass container manufactured by the Owens-Illinois Pacific Coast Company which is subject to Maximum Price Regulation No. 188 and which meets all of the following conditions:

(i) Which was not delivered or offered for delivery during March 1942 by the Owens-Illinois Pacific Coast Company;

(ii) The price of which cannot be determined upon the basis of prices which the Owens-Illinois Pacific Coast Company had in effect for glass containers during March 1942; and

(iii) Which may not be priced under § 1499.155 of Maximum Price Regulation No. 188.

(2) "Special carton" means any carton for which no maximum price has already been established by inclusion in the price lists of the Owens-Illinois Pacific Coast Company or by some provision in a regulation or order of the Office of Price Administration. The term "special carton" under this order shall include any special packaging, including wooden boxes as well as any other types of shipping cases or packages for glass containers.

(d) Any selling price determined under this order shall be subject to adjustment at any time by the Office of Price Administration.

(e) This order may be revoked or amended by the Office of Price Administration at any time.

This order shall become effective May 7, 1943.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

[Order 34 Under Rev. MPR 143]

SAN DIEGO COUNTY, CALIFORNIA

DESIGNATION AS CRITICAL MEAT SHORTAGE AREA

Order No. 34 under Revised Maximum Price Regulation No. 142—Dressed Hogs and Wholesale Pork Cuts.

Pursuant to § 1364.23 (b) of Revised Maximum Price Regulation No. 143, I find that a critical shortage of meat has occurred in San Diego County in the state of California because of the unavailability of customary sources of supply and because the established maximum prices do not contain a sufficient allowance to cover the cost of transporting meat to that area from other sources of supply. San Diego County in the state of California is hereby designated a critical area, and the Regional Administrator for the Eighth Region, or any district manager authorized by him may in writing authorize sellers to charge and receive, for dressed hogs and wholesale pork cuts and processed products sold to buyers in San Diego County, the actual added cost of transportation in addition to the applicable maximum price. Before giving such written authorization to any seller the Regional Administrator or the District Manager authorized by him shall determine the actual added cost of transportation as follows: He shall ascertain the method of transportation which the seller proposes to use in transporting meat to San Diego County and the costs of such transportation. To the extent that these costs exceed the difference between the maximum f. o. b. shipping point prices at the point where the shipment originates and the maximum delivered prices in San Diego County, there is an actual added cost of transportation which may be charged in addition to the applicable maximum delivered price at San Diego County, California.

This designation shall remain in effect to and including July 25, 1943 unless sooner terminated or unless extended by an amendment to this order.

This order may be revoked or amended at any time.

This order shall become effective May 7, 1943.

[Order 30 Under MPR 169]

SAN DIEGO COUNTY, CALIFORNIA

DESIGNATION AS CRITICAL MEAT SHORTAGE
AREA

Order No. 30 under Revised Maximum Price Regulation No. 169—Beef and Veal Carcasses and Wholesale Cuts.

Pursuant to § 1364.405 (b) of Revised Maximum Price Regulation No. 169, I find that a critical shortage of meat has occurred in San Diego County in the state of California because of the unavailability of customary sources of supply and because the established maximum prices do not contain a sufficient allowance to cover the cost of transporting meat to that area from other sources of supply. San Diego County in the state of California is hereby designated a critical area, and the Regional Administrator for the Eighth Region, or any district manager authorized by him may in writing authorize sellers to charge and receive, for beef or veal carcasses and wholesale cuts and processed products sold to buyers in San Diego County, the actual added cost of transportation in addition to the applicable maximum price. Before giving such written authorization to any seller the Regional Administrator or the District Manager authorized by him shall determine the actual added cost of transportation as follows: He shall ascertain the method of transportation which the seller proposes to use in transporting meat to San Diego County and the costs of such transportation. To the extent that these costs exceed the difference between the maximum f. o. b. shipping point prices at the point where the shipment originates and the maximum delivered prices in San Diego County, there is an actual added cost of transportation which may be charged in addition to the applicable maximum delivered price at San Diego County California.

This designation shall remain in effect to and including July 25, 1943, unless sooner terminated or unless extended by an amendment to this order.

This order may be revoked or amended at any time.

This order shall become effective May 7, 1943.

Regional Office, Region II.

[Order G 7 Under Rev. MPR 122]

PENNSYLVANIA ANTHRACITE DELIVERED BY
DEALERS

FIXING OF MAXIMUM PRICES

Order No. G 7 under § 1340.260 of Revised Maximum Price Regulation No. 122—Solid Fuels Sold and Delivered by Dealers.

Pennsylvania anthracite delivered by dealers in Philadelphia County, Delaware County and designated townships and boroughs in Bucks and Montgomery Counties, Commonwealth of Pennsylvania, Coal Area I.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by § 1340.260 of Revised

Maximum Price Regulation No. 122, Order No. G 7 is hereby issued.

(a) *What this order does*—(1) *Dealers' maximum prices: Area covered* If you are a dealer in "Pennsylvania anthracite", this order fixes the maximum prices which you may charge, and if you are a purchaser in the course of trade or business, this order fixes the maximum prices which you may pay, for certain sizes and quantities of "Pennsylvania anthracite" delivered to or at any point in Coal Area I. Coal Area I includes the following portions of the Commonwealth of Pennsylvania: Philadelphia County; Delaware County; the Townships of Upper Southampton, Lower Southampton, Northampton, Warminster, Warwick, and the Borough of Ivyland, in Bucks County; and the Townships of Lower Moreland, Upper Moreland, Abington, Cheltenham, Horscham, Upper Dublin, Lower Gwynedd, Whitpain, Whitmarsh, Springfield, Lower Merion, and the Boroughs of Bryn Athyn, Hatboro, Rockledge, Jenkintown, Ambler and Narberth, in Montgomery County.

Hereinafter in this order "Pennsylvania anthracite" shall be called simply "anthracite".

(2) *Schedules of prices, charges and discounts.* The applicable prices, authorized charges and required discounts, from which you shall determine the maximum prices for designated sizes and quantities of anthracite delivered within Coal Area I, are set forth in Schedules I, II, and III hereafter.

(3) *To what sales this order applies.* If you are a dealer in anthracite, you are bound by the prices, charges and discounts, and by all other provisions of this order for all deliveries within Coal Area I, whether or not you are located in Coal Area I.

(b) *What this order prohibits.* Regardless of any contract or other obligations, you shall not:

(1) Sell or, in the course of trade or business, buy anthracite of the sizes and in the quantities set forth in the Schedules herein, at prices higher than the maximum prices computed as set forth in paragraph (c) of this order, although you may charge, pay, or offer less than maximum prices.

(2) Obtain any price higher than the applicable maximum price by:

(i) Changing the discounts authorized herein, or

(ii) Charging for any service which is not expressly requested by the buyer, or

(iii) Charging for any service for which a charge is not specifically authorized by this order, or

(iv) Charging a price for any service set forth in Schedule I higher than the Schedule price for such service, or

(v) Increasing any interest rate on debts over the rate charged in December 1941, or

(vi) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, or

(vii) Using any other device by which a higher price than the applicable maximum price is obtained, directly or indirectly.

(c) *How to compute maximum prices.* You must figure your maximum price as follows:

(1) Use the schedule which covers your sale. (Schedule I applies to "direct-delivery" sales of anthracite. You will find Schedule I in paragraph (d). Schedule II applies to "yard sales" by dealers who sell exclusively to equipped dealers, and by other dealers. You will find Schedule II in paragraph (e). Schedule III applies to sales of bagged coal in 25 lb. and 18 lb. paper bags. You will find Schedule III in paragraph (f).)

(2) Take the dollar-and-cents figure given in the applicable schedule for the size and quantity you are selling.

(3) Deduct from this figure the amount of the discount which you are required to give as specified in the schedule. (You will find discounts stated in paragraph (d) (2) and paragraph (e) (3).) If the schedule makes no reference to any discount, you need give no discount. Where a discount is required, you must state it separately on your invoice.

(4) If, at your purchaser's request, you actually render him a service for which this order authorizes a charge, you may add to the figure derived from the preceding subparagraphs (2) and (3) no more than the maximum authorized service charge. You must state that charge separately on your invoice. The only authorized service charges are those provided for sales under Schedule I.

(5) If you deliver a fraction of a net ton, even if less than one half ton, and the applicable schedule provides a discount on the basis of one ton or one half ton, you shall allow a proportionate discount, making your calculation to the nearest full cent. For example, if you are required to deduct 50¢ per ton for cash payment, you shall deduct 38¢ for three-quarters of a ton and 13¢ for one-quarter of a ton.

(6) If you deliver a fraction of a net ton, but not less than one-half ton, and the applicable schedule provides a service charge on the basis of one ton, you shall add no more than a proportionate service charge, making your calculation to the nearest full cent. For example, if the transaction permits a service charge of 50¢ per ton, you shall not add more than 38¢ for performance of that service in connection with the delivery of three-quarters of a ton.

(d) *Schedule I; sales on a "direct-delivery" basis.* Schedule I establishes maximum prices for certain sizes of anthracite in certain specific quantities, delivered to or at any point within Coal Area I.

(1) *For sales of anthracite of the sizes and in the quantities specified.*

Nothing in this sub-paragraph requires you to sell on other than a cash basis.

(ii) In addition, you shall deduct a discount of 50¢ per net ton, on sales and deliveries of all sizes except Buckwheat No. 4 and screenings, to consumers purchasing from one dealer, for delivery at one point, a quantity of 100 tons or more, within a period of twelve months.

(a) You shall not break up a single order in an attempt to avoid this discount.

(b) You must grant this discount whether the purchaser has received 100 tons or more pursuant to a single purchase order, or several purchase orders, and whether there was delivery at one time or at intervals of time, the sole basis of the discount being the annual purchase of 100 tons or more for delivery at one point.

(c) You must deduct this discount at or before the delivery of the one hundred-ton and continue to grant the discount on every subsequent delivery during the same twelve month period.

(3) *Maximum authorized service charges.*

(g) *Addition of railroad freight rate increase prohibited.* The specific maximum prices prescribed herein include the amount of the railroad freight rate increase incurred as a result of the Interstate Commerce Commission's order in its Docket Ex Parte 148, effective March 18, 1942. You may not add such railroad freight rate increase to the maximum prices.

(h) *Addition of increase in suppliers' maximum prices prohibited.* You may not increase the specific maximum prices established by this order to reflect, in whole or in part, any subsequent increase to you in your supplier's maximum price for the same fuel. The specific maximum prices already reflect increases to you in your supplier's maximum prices occurring up to the effective date of this order. If increases in your supplier's maximum prices should occur after such date, as the result of any amendment to or revision of a maximum price regulation issued by the Office of Price Administration governing sales and deliveries made by such suppliers, the Regional Administrator will, if he then deems it to be warranted, take appropriate action to amend this order to reflect such increases.

(i) *Taxes.* If you are a dealer subject to this order you may collect, in addition to the specific maximum prices established herein, provided you state it separately, the amount of the Federal tax upon the transportation of property imposed by section 620 of the Revenue Act of 1942 actually paid or incurred by you, or an amount equal to the amount of such tax paid by any of your prior suppliers and separately stated and collected from you by the supplier from whom you purchased.

(j) *Adjustable pricing.* You may not make a price adjustable to a maximum price which will be in effect at some time

after delivery of the anthracite has been completed; but the price may be adjustable to the maximum price in effect at the time of delivery.

(k) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed with the Regional Administrator and acted upon by him.

(l) *Right of amendment or revocation.* The Regional Administrator or the Price Administrator may amend, revoke or rescind this order, or any provision thereof, at any time.

(m) *Applicability of other regulations.* If you are a dealer subject to this order, you are governed by the licensing and registration provisions of sections 15 and 16 of the General Maximum Price Regulation. Sections 15 and 16 provide, in brief, that a license is required of all persons selling at retail commodities for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license, but you may later be required to register. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If your license is suspended, you may not sell any such commodity during the period of suspension.

(n) *Records.* If you are a dealer subject to this order, you shall preserve, keep, and make available for examination by the Office of Price Administration, the same records you were required to preserve and keep under § 1340.262 (a) and (b) of Revised Maximum Price Regulation No. 122.

(o) *Posting of maximum prices: sales slips and receipts.* (1) If you are a dealer subject to this order, you shall post all your maximum prices (as set forth in the applicable Schedule or Schedules of this order) in your place of business in a manner plainly visible to and understandable by the purchasing public.

(2) If you are a dealer subject to this order, you shall, except for a sale of less than one-half ton, give each purchaser a sales slip or receipt showing your name and address, the kind, size, and quantity of the anthracite sold to him, the date of the sale or delivery and the price charged, separately stating the amount, if any, of the required discounts which must be deducted from, and the authorized service charges and the taxes, which may be added to, the specific maximum prices prescribed herein.

In the case of all other sales, you shall give each purchaser a sales slip or receipt containing the information described in the foregoing paragraph, if requested by such purchaser or if, during December 1941, you customarily gave purchasers such sales slips or receipts.

(p) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, pro-

vided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Philadelphia District Office of the Office of Price Administration.

"Direct delivery" in 50 lb. bags or 100 lb. lots shall mean depositing in buyer's bin or other storage space designated by buyer.

(s) *Effective date.* This order shall become effective May 4, 1943.

Issued this 4th day of May 1943.
